

the effects of this proposed interim directive on State, local, and tribal governments and the private sector. This proposed interim directive would not compel the expenditure of \$100 million or more by any State, local, or tribal governments or anyone in the private sector. Therefore, a statement under section 202 of the act is not required.

No Takings Implications

This proposed interim directive has been analyzed in accordance with the principles and criteria contained in Executive Order 12630, and it has been determined that the proposed interim directive would not pose the risk of a taking of Constitutionally protected private property. Executive Order 12630 would not apply to this proposed interim directive because it consists primarily of technical and administrative changes governing authorization of occupancy and use of National Forest System lands. Forest Service special use authorizations for ski areas do not grant any right, title, or interest in or to lands or resources held by the United States.

Civil Justice Reform Act

This proposed interim directive has been reviewed under Executive Order 12988, Civil Justice Reform. If this proposed interim directive were adopted, (1) all State and local laws and regulations that are in conflict with this proposed interim directive or which would impede its full implementation would be preempted; (2) no retroactive effect would be given to this proposed interim directive; and (3) it would not require administrative proceedings before parties may file suit in court challenging its provisions.
