

responsibility (more than 65 percent of their time) with regard to the grant program involved direct overall grant management assignments, or the pro rate share of the salary, wages, and related costs of each person whose job includes any overall grant management assignments. The grantee may have one of these two methods during the program. Overall grant management includes the following kinds of activities:

(i) Preparing grantee program budgets and schedules, and amendments thereto.

(ii) Preparing presentations, reports, and other documents related to the program to EPA.

(iii) Developing systems for assuring compliance with program requirements.

(iv) Evaluating program results against stated objectives.

(v) Managing or supervising persons whose responsibilities with regard to the program include such assignments as those described in paragraphs (i) through (iv) of this unit.

b. Travel costs incurred for official business in carrying out the overall grant management.

c. Administrative services performed under third party contract or agreement, for services directly allocable to overall grant management such as overall-grant legal services, overall-grant accounting services, and overall-grant audit services;

d. Other costs for goods and services required for and directly related to the overall management of the grant program, including such goods and services as telephone, postage, rental of equipment, renter's insurance for the program management space, utilities, office supplies, and rental and maintenance (but not purchase) of office space for the program.

To repeat, all of the above activities, goods and services (Items a. (i.-v.), b., c., and d. in Unit X.D.2. of this document) are subject to the 10 percent limit.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-5917-3]

### EPA's Unregulated Contaminant Monitoring Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Announcement of a stakeholder meeting on the development of Unregulated Contaminant Monitoring Regulations and a List.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) has scheduled a two-day public meeting on EPA's development of Unregulated Contaminant Monitoring Regulations and a List. The focus of this meeting will be the development of the Unregulated Contaminant Monitoring Regulation and List of unregulated contaminants to be monitored by public water systems as required by the Safe Drinking Water Act (SDWA) as amended in 1996. The meeting will be open to any interested parties. EPA encourages the full participation of stakeholders throughout this process.

**DATES:** The stakeholder meeting on the Unregulated Contaminant Monitoring Program will be held on December 2-3, 1997, from 9:00 a.m. to 4:00 p.m. EST.

**ADDRESSES:** Resolve, Inc. (an EPA contractor) will provide logistical support for the stakeholders meeting. The meeting will be held at Resolve, Inc., 1255 23rd Street, N.W., Suite 275, Washington, D.C. 20037.

**FOR FURTHER INFORMATION CONTACT:** For general information about the meeting, please contact Mr. Jeff Citrin at Resolve, Inc., 1255 23rd Street, N.W., Suite 275, Washington, D.C. 20037; phone: (202) 965-6388; fax: (202) 338-1264, or e-mail at jcitrin@resolv.org.

For other information on Unregulated Contaminant Monitoring Regulations and a List, please contact Charles Job, at the U.S. Environmental Protection Agency, Phone: 202-260-7084, Fax: 202-260-3762.

Members of the public wishing to attend the meeting may register by phone by contacting Mr. Jeff Citrin by November 15, 1997. Those registered for the meeting will receive background materials prior to the meeting.

#### SUPPLEMENTARY INFORMATION:

#### A. Background on the Unregulated Contaminant Monitoring Regulation

EPA must issue regulations establishing criteria for the monitoring of unregulated contaminants. Monitoring shall vary based on system size, source water, and contaminants

likely to be found. Only a representative sample of systems serving 10,000 persons or fewer must be monitored. Within 3 years after enactment, and every 5 years thereafter, EPA shall issue a list of not more than 30 unregulated contaminants to be monitored by public water systems. Results of the monitoring are to be included in the national contaminant occurrence data base. Each state may develop an unregulated contaminant monitoring plan for small and medium systems (serving fewer than 10,000 persons). EPA is required to cover the reasonable costs of testing and laboratory analysis for such plans, using funds authorized by Congress for unregulated contaminant monitoring or a \$2 million Drinking Water State Revolving Fund (DWSRF) reservation. EPA shall waive the requirement for monitoring of unregulated contaminants in a state if the state demonstrates that the criteria for listing are not applicable in the state. Water systems must provide the results of unregulated contaminant monitoring to the primacy agency (state/EPA) and must notify persons served by the system of the availability of results [section 1445(a)(2)].

#### B. Request for Stakeholder Involvement

The upcoming meeting deals specifically with EPA's efforts to develop Unregulated Contaminant Monitoring Regulations and a List. EPA believes that the initial list of unregulated contaminants for which monitoring will be required will largely come from the first Contaminant Candidate List (CCL) to be published in final form by February 1998. EPA will use the CCL to establish priorities for additional occurrence data gathering, health effects research, and regulation development. One of EPA's goals is to obtain monitoring data on certain unregulated contaminants to determine whether any of the contaminants should be regulated in the future to protect drinking water used by consumers from public water systems. These unregulated contaminant data will also be used to support the development of future CCL and to guide future research. These data will be reported to the National Contaminant Occurrence Data Base and to the users of the selected water systems, as required by law.

The EPA Office of Ground Water and Drinking Water (OGWDW) sees the involvement of interested parties, representing a variety of perspectives and expertise, as critical to the development of a credible, effective and implementable regulation and list. This stakeholder meeting will provide an important opportunity for such involvement. Some anticipated issues

for discussion include the following questions:

1. Is the objective of unregulated contaminant monitoring to identify the occurrence of contaminants in the environment or to assess exposure from the finished water?
2. What should be the criteria for an unregulated contaminant monitoring program?
3. What is a "representative sample" of small and medium systems?
4. What should be the protocols for representative sampling?
5. What monitoring data should be reported and how?
6. What should be the criteria for determining which of the unregulated contaminants on the CCL should be a candidate for required monitoring?
7. What analytical methods should apply to unregulated contaminants?
8. How should the results of unregulated contaminant monitoring be used?
9. What steps need to be taken and what process should be used to complete this effort?

EPA has convened this public meeting to hear the views of stakeholders on the development of Unregulated Contaminant Monitoring Regulations and a List. The public is invited to provide comments on the issues listed above or other issues related to the Unregulated Contaminant Monitoring Regulations and a List during the December 2-3, 1997 meeting.

Dated: October 29, 1997.
