[Docket No. RP98-20-000]

Wyoming Interstate Company Ltd.; Notice in Proposed Changes in FERC Gas Tariff

October 31, 1997.

Take notice that on October 28, 1997, Wyoming Interstate Company Ltd. (WIC), tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed in Appendix A to the filing, to be effective November 1, 1997.

WIC states the purposes of this filing is to conform WIC's Volume No. 1 tariff (individually certificated services) to the changes made to WIC's Volume No. 2 Tariff (open access service) to comply with Order No. 587-C requirements.

WIC states that copies of this filing have been served on WIC's jurisdictional customers and public bodies.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.214 and Section 385.211 of the Commission's Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5918-4]

Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses; Public Review of a Notification of Intent to Certify Equipment

AGENCY: Environmental Protection Agency.

ACTION: Notice of Agency receipt of a notification of intent to certify equipment and initiation of 45-day public review and comment period.

SUMMARY: Detroit Diesel Corporation (DDC) has submitted to the Agency a notification of intent to certify urban bus retrofit/rebuild equipment to a 0.1 gram per brake-horsepower-hr (g/bhp-hr) particulate matter (PM) standard pursuant to 40 CFR Part 85, Subpart O. The equipment, referred to by DDC consists of the base engine components used on the 25% reduction retrofit/rebuild kit certified by DDC (October 2, 1995), components from the 25% retrofit catalyst kit previously certified under the program by Engine Control Systems, Ltd. (January 6, 1997), and a TurboPac supercharger system supplied by Turbodyne Systems, Inc. which supplies additional charge air during engine acceleration. The candidate kit is applicable to all 6V-92TA MUI engine models made by DDC for model years 1979 to 1989 and equipped with mechanical unit injectors (MUI).

DDC intends this equipment to be certified to the particulate matter level of 0.10 g/bhp-hr. If the Agency certifies that this equipment complies with the 0.10 g/bhp-hr level, then operators with

affected engines will have the choice of using this equipment or other equipment that is already required for use and certified to the 0.10 g/bhp-hr standard within the cost limitation.

Pursuant to § 85.1407(a)(7), today's **Federal Register** notice summarizes the notification, announces that the notification is available for public review and comment, and initiates a 45-day period during which comments can be submitted. The Agency will review this notification of intent to certify, as well as any comments it receives, to determine whether the equipment described in the notification of intent to certify should be certified. If certified, the equipment can be used by urban bus operators to reduce the particulate matter of urban bus engines.

The notification of intent to certify, as well as other materials specifically relevant to it, are contained in Category XX-A of Public Docket A-93-42, entitled "Certification of Urban Bus Retrofit/Rebuild Equipment". This docket is located at the address listed below.

Today's notice initiates a 45-day period during which the Agency will accept written comments relevant to whether or not the equipment included in this notification of intent to certify should be certified. Comments should be provided in writing to the addresses below.

DATES: Comments must be submitted on or before December 22, 1997.

ADDRESSES: Submit separate copies of comments to each of the two following addresses:

1. U.S. Environmental Protection Agency, Public Air Docket A-93-42 (Category XX-A), Room M-1500, 401 M Street S.W., Washington, DC 20460.

2. Anthony Erb, Engine Compliance Programs Group, Engine Programs and Compliance Division (6403J), U.S. Environmental Protection Agency, 401 "M" Street S.W., Washington, DC 20460.

The DDC notification of intent to certify, as well as other materials specifically relevant to it, are contained in the public docket indicated above. Docket items may be inspected from 8:00 a.m. until 5:30 p.m., Monday through Friday. As provided in 40 CFR Part 2, a reasonable fee may be charged by the Agency for copying docket materials.

FOR FURTHER INFORMATION CONTACT: Anthony Erb, Engine Programs and Compliance Division (6403J), U.S. Environmental Protection Agency, 401 M St. SW, Washington, D.C. 20460. Telephone: (202) 233-9259.
