Conoco, Inc. v. Williams Natural Gas Company; Notice of Complaint

November 5, 1997.

Take notice that on October 29, 1997, Conoco, Inc. (Conoco), 600 N. Dairy Ashford, ML-1034, Houston, Texas 77079, filed a complaint against Williams Natural Gas Company (WNG), pursuant to Rule 206 of the Commission's Rules of Practice and Procedure (18 CFR 385.206), alleging violations by WNG of Section 7 of the Natural Gas Act, all as more fully set forth in the complaint on file with the Commission and open to public inspection.

Conoco states its belief that WNG has constructed and is about to begin operating an expansion of its pipeline facilities in Hemphill County, Texas, consisting of 13.5 miles of pipeline extending from the Williams Field Service Hobart Ranch plant to WNG's 26-inch Canadian-Blackwell mainline. Conoco also states its belief that WNG will abandon its Pampa outlet line, which also runs from the WFS Hobart Ranch plant to WNG's Canadian-Blackwell line, as well as the Higgins compression facility, a 1,200 horsepower compressor located at the intersection of the Pampa and Canadian-Blackwell lines. Conoco requests that the Commission issue a cease and desist order to stop WNG from operating the facilities installed, to stop WNG from constructing additional facilities and from abandoning existing facilities. Conoco further requests that WNG be compelled to file applications for the certificate and abandonment authorizations for its activities.

Any person desiring to be heard or to make any protest with reference to said complaint should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).
