

**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Part 52**

[VA-5029a; FRL-5921-4]

**Approval and Promulgation of Air Quality Implementation Plans; Virginia; Approval of VOC RACT Determinations for Individual Sources; Correction**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule; corrections.

**SUMMARY:** This document corrects the preamble to a direct final rule published in the **Federal Register** of October 14, 1997 regarding the approval of Reasonably Available Control Technology (RACT) for six major sources of volatile organic compounds (VOC) located in Virginia. The document contains an incorrect annual emission rate and a typographical error.

**DATES:** Effective November 28, 1997.

**FOR FURTHER INFORMATION CONTACT:** Kimberly Peck, (215) 566-2165.

**SUPPLEMENTARY INFORMATION:** In direct final rule FRL-5904-3, beginning on page 53243 in the **Federal Register** issue of October 14, 1997, make the following corrections, in the Preamble section. On page 53243 in the middle column, change the second full paragraph to the following:

“The uncontrolled stack VOC emissions from the Bermuda Hundred Facility are estimated to be 93.4 tons per year.”

On page 53243 in the middle column, change the third full paragraph to the following:

“RACT as prescribed in the Consent Agreement, Registration Number 50722, dated March 26, 1997 is determined to be no controls as Virginia determined that add-on controls were not economically feasible or cost-effective.”

Dated: November 3, 1997.

**Thomas C. Voltaggio,**

*Acting Regional Administrator, Region III.*

[CS Docket No. 95-184; MM Docket No. 92-260; FCC 97-376]

**Inside Wiring**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The Commission has adopted a *Report and Order and Second Further Notice of Proposed Rulemaking* which addresses rules and policies concerning cable inside wiring. The *Second Further Notice of Proposed Rulemaking* segment of this decision may be found elsewhere in this issue of the **Federal Register**. The *Report and Order* (“*Order*”) segment amends the Commission’s regulations relating to the disposition of cable home wiring and establishes regulations for the disposition of home run wiring and related issues including the sharing of molding, the demarcation point for multiple dwelling unit buildings (“MDUs”), loop-through cable wiring configurations, customer access to cable home wiring before termination of service, and signal leakage. This action was necessary because competition is currently being deterred by disputes over control and use of the wires necessary to reach each unit in an MDU. The intended effect of this action is to expand opportunities for new entrants seeking to compete in distributing video programming and to broaden consumers’ ability to install and maintain their own wiring.

**DATES:** Amendments in §§ 76.613, 76.802 and 76.804 contain information collection requirements, and will not become effective until approved by the Office of Management and Budget (“OMB”). Amendments in §§ 76.5, 76.620, 76.800, 76.805 and 76.806 become effective December 15, 1997. However, compliance with amendments in §§ 76.5, 76.620, 76.800, 76.805 and 76.806 will not be required until OMB approval of the information collection requirements in §§ 76.613, 76.802 and 76.804. When approval is received, the Commission will publish a document announcing the effective date of the amendments in §§ 76.613, 76.802 and 76.804, and the date of compliance for the amendments in §§ 76.5, 76.620, 76.800, 76.805 and 76.806.

Written comments by the public on the modified information collections are due on or before January 13, 1998.

**ADDRESSES:** A copy of any comments on the information collections contained herein should be submitted to Judy Boley, Federal Communications Commission, Room 234, 1919 M Street, NW, Washington, DC 20554, or via the Internet to [jboley@fcc.gov](mailto:jboley@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** Rick Chessen, Cable Services Bureau, (202) 418-7200. For additional information concerning the information collections contained herein, contact Judy Boley at 202-418-0214, or via the Internet at [jboley@fcc.gov](mailto:jboley@fcc.gov).

**Paperwork Reduction Act**

The *Order* contains modified information collection requirements. The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Comments should address: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**OMB Approval Number:** 3060-0692.

**Title:** Cable Inside Wiring Provisions.

**Type of Review:** Revision of a currently approved collection.

**Respondents:** Individuals; Businesses or other for-profit entities.

**Number of Respondents:** 30,500 (20,500 MVPDs and 10,000 MDU owners).

**Estimated Time Per Response:** 5 minutes to 30 minutes.

**Total Annual Burden to Respondents:**

46,114 hours, calculated as follows: This collection (3060-0692) accounts for all information collection requirements that may come into play during the disposition of cable home wiring in single dwelling units, as well as the disposition of home run wiring and cable home wiring in multiple dwelling units. All multichannel video programming distributors (“MVPDs”), both cable and non-cable alike, will be subject to the disposition rules in MDUs. Pursuant to the Paperwork Reduction Act, when modifying only portions of an information collection, agencies are still obligated to put forth the entire collection for public comment.

This information collection also now accounts for information collection stated in 47 CFR 76.613, where MVPDs causing harmful signal interference may be required by the Commission’s District Director and/or Resident Agent to prepare and submit a report regarding the cause(s) of the interference, corrective measures planned or taken, and the efficacy of the remedial measures. Through the course of this rulemaking proceeding, the Commission
