The EAS Activation Report (FCC Form 201) is part of the EAS planning program. The program is a tri-agency agreement between the Commission, the NOAA National Weather Service, and the Federal Emergency Management Agency (FEMA) The FCC 201 postcard was recommended for use in the program by the National Industry Advisory Committee (NIAC). OMB Control No.: 3060-0629.

Title: Section 76.987, New Product Tiers.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for profit.

Number of Respondents: 500.

Estimated Time Per Response: .5 hours.

Frequency of Response: On occasion reporting requirement.

Cost to Respondents: Postage and stationery costs are estimated to be \$1 per filing. Therefore, 500 filings x \$1=\$500.

Total Annual Burden: The Commission estimates that approximately 500 NPT filings will be received in the next year. The average burden to cable operators to comply with this filing requirement is estimated to be .5 hours per filing. 500 filings x .5=250 total annual burden hours.

Needs and Uses: Section 76.987(g) states that within 30 days of the offering of a new product tier ("NPT"), operators shall file with the Commission, a copy of the new rate card that contains the following information on their basic service tiers ("BSTs"), able programming service tiers ("CPSTs"), and NPTs: (1) The names of the

programming services contained on each tier; and (2) the price of each tier. Operators also must file with the Commission, copies of notifications that were sent to subscribers regarding the initial offering of NPTs. After this initial filing, cable operators must file updated rate cards and copies of customer notifications with the Commission within 30 days of rate or service changes affecting the NPT.

The information contained in NPT filings is used by the Commission to ensure that cable operators are complying with conditions set forth for NPTs, i.e., that operators are not making fundamental changes to what they offer on their tiers of service, and that subscribers are given due notice of NPT offerings.

Federal Communications Commission.

Title: Policies and Rules Concerning Unauthorized Changes of Consumers' Long Distance Carriers, CC Docket No. 94-129.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for profit.

Number of Respondents: 500.

Frequency of Response: On occasion reporting requirement and third party disclosure.

Cost to Respondents: N/A.

Total Annual Burden: 1,000 hours.

Needs and Uses: In CC Docket 94-129, Report and Order (R&O), Policies and Rules Concerning Unauthorized Changes of Consumers' Long Distance Carriers, (1995), the Commission adopted consumer protection mechanisms that were designed to curb widespread instances of slamming and associated deceptive or misleading marketing practices by many long distance carriers. In response to six petitions for reconsideration of the 1995 R&O, we amend our rules in three respects. First, we modify 47 CFR 64.1150(g) to clarify that interexchange carriers (IXCS) using letters of agency (LOAs) must fully translate their LOAs into the same language(s) as their associated promotional materials or oral descriptions and instructions. Second, we modify 47 CFR 64.1150(e)(4) to incorporate the terms interLATA and intraLATA, as well as interstate and intrastate, in order to remove all possible confusion or uncertainty about the scope of our rules, which are generally relevant to all jurisdictions. Third, we modify 47 CFR 64.1100(a) to clarify that IXC's must confirm orders for long distance service generated by
