The United States and twenty other countries have undertaken to increase the effectiveness of their respective controls over international trade in strategic commodities by means of an Import Certificate procedure. **SUPPLEMENTARY INFORMATION:**

**I. Abstract**

To insure that U.S. exports go only to legally authorized destinations, "a destination control statement" is required to be entered on all commercial

invoices and bills of lading or air waybills covering an export from the United States. The same statement must appear on all copies of all such shipping documents that apply to the same shipment. The exporter has the primary responsibility for assuring that the statement is entered on the commercial invoice, regardless of whether he prepares this document. If a forwarder, a carrier acting as a forwarder, or any other party prepares, presents, and/or executes a commercial invoice, that person is also responsible for assuring that an appropriate statement is entered on the document. Consequently, when a forwarding agent finds the documentation lacks the appropriate destination control statement, then he/she is required to notify the exporter of the problem. The forwarder must obtain a written assurance from the exporter that all copies have been corrected.

**II. Method of Collection**

This collection is a written requirement between freight forwarders and exporters.
