

program, we found that we inadvertently failed to include a step in the product matching section of the program. This resulted in a failure to properly search for identical control numbers in both of the home market control number fields for a given U.S. sale. Correcting the margin program resulted in matching previously unmatched U.S. sales as identified by Daido in its November 17, 1997, clerical error allegation.

**Issue 3: Unmatched U.S. Sales—
Computer Input Error by Respondent**

Daido states that, in three instances, it inadvertently assigned slightly different control numbers for the same products on its home market and U.S. sales tapes. Specifically, in the first instance, Daido states that it made home market sales of a model identical to one sold in the United States. However, Daido states that although the digits in the control number are exactly the same in the U.S. and home market sales tapes, it inadvertently coded the home market model with a space in the middle. In the second instance, Daido claims that an extra digit was mistakenly added to the end of a home market control number. In the final instance, Daido maintains that although for one model the control number in the U.S. sales listing differs from the control number in the home market sales listing by one digit (*i.e.*, the use of a "C" in the home market and a "D" in the United States), the products are identical. As a result of these three errors, certain U.S. sales went unmatched. Daido requests that we revise the matching control numbers in the three instances listed above so that the control numbers on both the home market and U.S. sales tapes are identical.

DOC Position: The Department does not believe that it may make corrections after final results of administrative review for errors committed by a party to the proceeding. (*See* Enuma issue number 2). Consequently, we made no revision to Daido's margin calculation with regard to these alleged errors.

Amended Final Results

As a result of our correction of the ministerial errors, we have determined the following amended margins exist for Enuma and Daido for the period April 1, 1995 through March 31, 1996:

Manufacturer/exporter	Percentage*
Daido	3.09
Enuma	1.55

* Amended Weighted-Average Margin

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisal instructions concerning the respondent directly to the U.S. Customs Service.

Furthermore, the following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these amended final results of administrative review, as provided for by section 751(a)(1) of the Act: (1) the cash deposit rate for each reviewed company named above will be the rate as stated above; (2) for previously investigated or reviewed companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this review, the cash deposit rate for all other manufacturers or exporters will be 15.92 percent, the All Others rate based on the first review conducted by the Department in which a "new shipper" rate was established in the final results of antidumping administrative review (48 FR 51801, November 14, 1983).

This notice serves as the final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of the APO is a sanctionable violation.

These amended final results of administrative review and notice are in accordance with section 751(a)(1) of the

Tariff Act (19 U.S.C. 1675(a)(1) and 19 CFR 353.28(c).

Assistant Secretary for Import Administration.
