FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 97-170; RM-8980]

Television Broadcasting Services; San Bernardino and Long Beach, CA

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document reallocates Channel 18- from San Bernardino to Long Beach, California, and modifies the license of KSLs, Inc. for Station KSCI(TV) to specify operation on Channel 18- at Long Beach, as requested, pursuant to the provisions of Section 1.420(i) of the Commission's Rules. See 62 FR 42225, August 6, 1997. The reallocation of Channel 18- to Long Beach will provide the larger

community with its first local television transmission service while retaining local television service at San Bernardino. Coordinates used for Channel 18- at Long Beach are 34-11-15 and 117-41-54. Although Long Beach is located within 320 kilometers (199 miles) of the United States-Mexico border, concurrence of the Mexican government to the reallocation of Channel 18- from San Bernardino was not required based upon the retention of the existing channel and transmitter site of Station KSCI(TV). However, as a result of the granted reallocation request, the Mexican government will be advised of the change to the TV Table of Allotments. With this action, this proceeding is terminated.

EFFECTIVE DATE: March 16, 1998.

Service and Auction Rules for the 38.6-40.0 GHz Frequency Band

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In the Report and Order portion of the Second Notice of Proposed Rule Making and Report and Order, the Commission amends rules to facilitate more effective use of the 39 GHz band, by implementing a number of improvements such as licensing by Basic Trading Areas (BTAs) and employing competitive bidding procedures as a means for choosing among mutually exclusive license applicants. In addition, the Commission concludes that the regulatory framework for the 39 GHz band should be expanded to include service rules for mobile operations. Such flexibility will promote competition by increasing both the diversity of potential service offerings and the number of providers that can offer any service. Finally, the Commission addresses those 39 GHz applications held in abeyance pursuant to a processing freeze.
