FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

March 25, 1998.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments by June 1, 1998.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commissions, Room 234, 1919 M St., N.W., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0640.

Title: Construction of SMR Stations Request for Additional Information.

Form No.: FCC 800I.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals, Businesses or other for-profit.

Number of Respondents: 300.

Estimated Time Per Response: 2 hours and 30 minutes.

Total Annual Burden: 750 hours.

Total Annual Cost: \$0.

Frequency of Response: On occasion reporting requirement.

Needs and Uses: This data collection (letter format) is used as a method of verifying if licensee has placed station into operation and for notifying the Commission of actual number of mobile units placed in operation after license grant. When a licensee provides conflicting information regarding the construction or operational status of radio facilities authorized to it, the Commission requires clarification/validation/explanation to substantiate the facilities' status so that it may enforce its regulatory responsibilities. Such responsibilities include the allocation and assignment of radio frequency spectrum and determining the viability of the underlying radio license authorizations which provide for use of that spectrum.

The data requested in this collection is being revised to include requesting purchase order/invoices for the base station, transmitter(s) and antenna; Work order/invoices demonstrating completion of station construction; Name, address and phone number of individual(s) performing the station construction; model and serial numbers of mobiles in operation; and a list of users and phone numbers on this system at the time of construction.

The Commission's requirement that systems be permanently constructed and placed in operation is contained in 47 CFR, Rule Section 90.155, 90.313, 90.631, 90.633, 90.651, 90.725 and 90.737.

OMB Approval Number: 3060-0767.

Title: Auction Forms and License Transfer Disclosures—Supplement for the 2nd R&O, Order on Reconsideration, and 5th NPRM in CC Docket No. 92-297.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Government.

Number of Respondents: 44,000 respondents and 180,000 responses.

Estimated Time Per Response: 30 minutes—4 hours per response.

Total Annual Burden: 773,000 hours.

Total Annual Costs: \$47,452,000.

Frequency of Response: On occasion reporting requirement.

Needs and Uses: The auction rules, among other things, require small

business applicants to submit ownership information and gross revenues calculations, and all applicants to submit terms of joint bidding agreements (if any). Furthermore, in a case a licensee defaults or loses its license, the Commission retains the discretion to reaucted such licenses. If licenses are reaucted, the new license winner would be required at the close of the reaction, to comply with the same disclosure requirements. Finally, licensees who transfer licenses within three years will be required to maintain certain information to ensure compliance with Commission rules.

Specifically: (1) Small business license winners (and their successors in interest as licensees) will be required to maintain a file over the license term containing ownership and gross revenues information, necessary to determine their business eligibility as a small business and (2) licensees who transfer licenses within three years are required to maintain a file of all documents and contracts pertaining to the transfer. Applicants that do not obtain the license(s) for which they applied shall maintain such files until the grant of such license(s) is final, or one year from the date of the filing of their short-form, application (FCC Form 175), whichever is earlier.

The Commission also adopted rules to determine the amount of unjust enrichment payments to be assessed upon assignment, transfer, partitioning and disaggregation of licenses. This rule, applicable to all current and future licensees, is based upon the unjust enrichment rule currently applicable to broadband PCS licensees. Additionally, the Commission amended its general anti-collusion rules, permitting the holder of a non-controlling attributable interest in an applicant to obtain an ownership interest in or enter into a consortium arrangement with another applicant for a license in the same geographic area provided that the original applicant has withdrawn from the auction, is no longer placing bids, and has no further eligibility. To meet the requirements of the exception, the attributable interest holder will be required to certify to the Commission that it did not communicate with the new applicant prior to the date the original applicant withdrew from the auction, and that it will not convey bidding information, or otherwise serve as a nexus between the previous and the new applicant.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.
