**FEDERAL COMMUNICATIONS COMMISSION****47 CFR Part 73**

[MM Docket Nos. 94-76, 94-77, and 95-51, RMS-8470, 8477, 8523, 8524, and 8591]

**Radio Broadcasting Services; Chester, Shasta Lake City, Alturas, McCloud, Weaverville, and Shingletown, California.**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; petition for reconsideration.

**SUMMARY:** The Commission denied the petitions for reconsideration, filed by JAYNE sawyer d/b/a m. JAYNE enterprises of the *Report and Order* in MM Dockets No. 94-76 and 94-77, 61 FR 24242, published May 14, 1996, and of the *Report and Order* in MM Docket 95-51, 61 FR 40746, published August 6, 1996. It also affirms both *Report and Orders* and their respective allotting of FM channels to six California communities, which accommodated all requests for FM channels made by each of the petitioners for rule making. With this action, the proceeding is terminated.

**EFFECTIVE DATE:** May 6, 1998.

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Parts 600 and 660**

[Docket No. 971229312-7312-01; I.D. 042398C]

**Fisheries off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Trip Limit Increases**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Fishing restrictions; request for comments.

**SUMMARY:** NMFS announces changes to the restrictions to the Pacific Coast groundfish limited entry and open access fisheries for widow rockfish, yellowtail rockfish, Dover sole, thornyheads, and sablefish (taken with trawl or fixed gear); and in the open access fishery for bocaccio taken with hook-and-line or pot gear, and for thornyheads caught in the pink shrimp trawl fishery. These restrictions are intended to extend the fisheries as long as possible during the year and to keep landings within the 1998 harvest guidelines (HGs) and allocations for these species. This document also corrects an error in the annual specifications and management measures for the Pacific Coast fishery published January 6, 1998.

**DATES:** Effective 0001 hours local time (l.t.) May 1, 1998, except for the trip limit for vessels operating in the "B" platoon, which will become effective at 0001 hours l.t. May 16, 1998. Effective at 0001 hours l.t. May 3, 1998, for vessels operating in the limited entry, fixed gear sablefish fishery south of 36° N. lat. These changes are in effect, unless modified, superceded or rescinded, until the effective date of the 1999 annual specifications and management measures for the Pacific Coast Groundfish fishery, which will be published in the **Federal Register**. Comments will be accepted through May 21, 1998.

**ADDRESSES:** Submit comments to William Stelle, Jr., Administrator, Northwest Region (Regional Administrator), NMFS, 7600 Sand Point Way NE., BIN C15700, Bldg. 1, Seattle, WA 98115-0070; or William Hogarth, Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213.

**FOR FURTHER INFORMATION CONTACT:** William L. Robinson, Northwest Region, NMFS, 206-526-6140; or Svein Fougner, Southwest Region, NMFS, 562-980-4040.

**SUPPLEMENTARY INFORMATION:** The following changes to current management measures were recommended by the Pacific Fishery Management Council (Council), in consultation with the States of Washington, Oregon, and California, at its April 6 to 10, 1998, meeting in Portland, OR.

**Increases to Limited Entry 2-Month Cumulative Limits**

El Nino climate changes have created unusually severe winter weather conditions off the Pacific Coast. Hazardous weather has led to lower groundfish landings than the Council had expected when it recommended the 1998 limited entry cumulative trip limits at its November 1997 meeting. Preliminary landing estimates for the first quarter of 1998 indicate, that if the fishery were to continue under current restrictions, the groundfish fleet would not achieve the HGs or allocations for several of the groundfish species managed with cumulative trip limits. For this reason, the Council recommended at its April 1998 meeting to raise the 2-month cumulative trip limits by 20 percent for some of the major groundfish species landed by the limited entry fishery, which also results in increases to the 60 percent limits in the limited entry fishery and to the 50 percent limits in the open access fishery.
