DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Agency Recordkeeping/Reporting Requirements Under Emergency Review by the Office of Management and Budget (OMB)**

Title: TANF High Performance Bonus Report for Fiscal Year 1999 and Emergency TANF Data Report [previously approved OMB Number 0970-0164].

OMB No.: New.

Description: Pub. L. 104-193 (the Personal Responsibility and Work Opportunity Reconciliation Act of 1996) established the Temporary Assistance for Needy Families (TANF) Program. It also included provisions for rewarding States which attain the highest levels of success in achieving the legislative goals of that program. The purpose of this collection is to obtain data upon which to base the computations for measuring State performance in meeting those goals and for allocating the bonus grant funds appropriated under the law.

Respondents: States, Puerto Rico, Guam, the Virgin Islands, and the District of Columbia.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden per respondent	Total burden hours
TANF High Performance Bonus Report (ACF-200)	54	4	14	3,024
Emergency TANF Data Report (ACF-198)	17	4	218.5	14,858

Estimated Total Burden Hours:
17,882.

Note: Competition for a High Performance Bonus is optional. This estimate assumes that all 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands would apply and be required to submit the TANF High Performance Bonus Report; however, only those competing jurisdictions operating separate State programs comparable to TANF would be required to submit the Emergency TANF Data Report for those separate State programs; those competing jurisdictions where the separate State programs are not comparable to the TANF program or would be required to submit other supplement data.

SUPPLEMENTARY INFORMATION:**I. Background**

On October 2, 1997, the President announced the "Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables" (fresh produce safety initiative). As part of the fresh produce safety initiative, the President directed the Secretary of Health and Human Services (DHHS) and the Secretary of

the U.S. Department of Agriculture (USDA), in cooperation with the agricultural community, to issue, within 1 year, guidance on good agricultural practices and good manufacturing practices for fresh fruits and vegetables. FDA is coordinating the effort for DHHS.

As part of this effort, FDA and USDA held a series of public meetings between November 17, 1997, and December 12, 1997, to provide the details on a broad approach on how to minimize microbial contamination through the control of water, manure, worker health and hygiene, field and facility sanitation, and transportation. A draft guide entitled "Working Draft: Guide to Minimize Microbial Food Safety Hazards for Fresh Fruit and Vegetables" was made available on FDA's World Wide Web (WWW) home page (<http://www.fda.gov>) and at each public meeting. Transcripts of these meetings and all comments received on the working draft of the proposed guide are on file in the Dockets Management Branch (address above) under the docket number found in brackets in the heading of this document and are accessible via the FDA home page on the WWW (<http://www.fda.gov/ohrms/dockets/default.htm>).

In the **Federal Register** of April 13, 1998 (63 FR 18029), FDA published a notice of availability of the proposed guide that responded to comments received on the working draft of the guide. The revised draft entitled "Guidance for Industry: Guide to Minimize Microbial Food Safety Hazards for Fresh Fruits and Vegetables" is available on the FDA home page on the WWW (<http://www.fda.gov/ohrms/dockets/default.htm>).

The public meetings will include an overview of the President's fresh produce safety initiative and a review of the proposed guide. The meetings are intended to obtain comment on the specific recommendations made in the
