

- Strategic planning process
- CONTOUR and Genesis mission summaries
- Mars Program review
- New Millennium program update, plans
- DS-4/Champollion mission overview
- Campaign strategy working group.

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: April 30, 1998.

Matthew M. Crouch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Electronic Records Work Group; Notice of Meeting

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of meeting.

SUMMARY: NARA will hold a public meeting of the Electronic Records Work Group on May 18, 1998, to present an update of the Work Group's progress in developing recommendations for replacing NARA's General Records Schedule (GRS) 20 for Electronic Records, and to obtain public comments and questions. Additional information about the Electronic Records Work Group is available on NARA's GRS 20 Internet Web page at <<http://www.nara.gov/records/grs20/>>.

DATES: The meeting will be held on May 18, 1998, from 9 a.m. to noon.

ADDRESSES: The meeting will be held in the Theater at the National Archives Building, 7th Street and Pennsylvania Avenue, NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Lisa Haralampus at 301-713-6677, extension 266. NARA requests that you call Ms. Naralampus to reserve a seat at the presentation. When you call, please leave your name and phone number so that a package of background materials can be made available to you prior to the presentation.

Dated: May 1, 1998.

Lewis J. Bellardo,

Deputy Archivist of the United States.

BILLING CODE 7515-01-M

NATIONAL SKILL STANDARDS BOARD

Notice of Open Meeting

AGENCY: National Skill Standards Board.

ACTION: Notice of open meeting.

SUMMARY: The National Skill Standards Board was established by an Act of Congress, the National Skill Standards Act, Title V, Pub. L. 103-227. The 27-member National Skill Standards Board will serve as a catalyst and be responsible for the development and implementation of a national system of voluntary skill standards and certification through voluntary partnerships which have the full and balanced participation of business, industry, labor, education and other key groups.

TIME & PLACE: The meeting will be held from 8:30 a.m. to approximately 1:30 p.m. on Friday, May 29, 1998 in Salons I and II of the Ritz-Carlton* Pentagon City located at 1250 South Hayes Street, Arlington, VA 22202.

AGENDA: The agenda for the Board Meeting will include: an update on the Board's Strategic Plan, updates from the Board's committees; and presentations from Voluntary Partnership for Manufacturing, Installation and Repair and the Convening Groups representing the following industries: Business & Administrative Services; Construction; Education and Training; Finance & Training; Restaurants, Lodging, Hospitality & Tourism, and Amusement & Recreation; Retail Trade, Wholesale Trade, Real Estate & Personal Services; and Telecommunications, Computers, Arts & Entertainment, and Information.

PUBLIC PARTICIPATION: The meeting, from 8:30 a.m. to 1:30 p.m., is open to the public. Seating is limited and will be available on a first-come first-served basis. Seats will be reserved for the media. Individuals with disabilities should contact Pat Warfield at (202) 254-8628 extension 24, if special accommodations are needed.

FOR FURTHER INFORMATION CONTACT:

Tracy Marshall, Manager of Program Operations at (202) 254-8628 extension 13.

Signed at Washington, DC, this 29th day of April, 1998.

Edie West,

Executive Director, National Skill Standards Board.

BILLING CODE 4510-23-M

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR 35.32 and 35.33 "Quality Management Program and Misadministrations".

2. Current OMB approval number: 3150-0171.

3. How often the collection is required:

For quality management program (QMP):

Reporting: New applicants for medical use licenses, who plan to use byproduct material in limited diagnostic and therapy quantities under Part 35, must develop a written QMP and submit a copy of it to NRC. When a new modality involving therapeutic quantities of byproduct material is added to an existing license, current licensees must submit QMP modifications.

This ICR burden estimate is inflated by the one-time cost for the development and submission of QMPs for approximately 2000 Agreement States licensees in ten Agreement States who have not adopted the rule and are not required to.

Recordkeeping: Records of written directives, administered dose or dosage, annual review, and recordable events for 3 years.

For Misadministrations:

Reporting: Whenever a misadministration occurs.

Recordkeeping: Records of misadministrations for 5 years.

4. Who is required or asked to report: NRC Part 35 licensees who use byproduct material in limited diagnostic and therapeutic ranges and similar type of licensees regulated by Agreement States.

5. An estimate of the number of respondents: 5276 (for both reporting and recordkeeping)

6. The number of hours needed annually to complete the requirement or

request: 34,743 hours for applicable licensees (Reporting: 24,400 hr/yr, and Recordkeeping: 10,343 hrs/yr).

7. Abstract: In the medical use of byproduct material, there have been instances where byproduct material was not administered as intended or was administered to a wrong individual, which resulted in unnecessary exposures or inadequate diagnostic or therapeutic procedures. The most frequent causes of these incidents were: insufficient supervision, deficient procedures, failure to follow procedures, and inattention to detail. In an effort to reduce the frequency of such events, the NRC requires licensees to implement a quality management program (§ 35.32) to provide high confidence that byproduct material or radiation from byproduct material will be administered as directed by an authorized user physician.

Collection of this information enables the NRC to ascertain whether misadministrations are investigated by the licensee and that corrective action is taken. Additionally, NRC has a responsibility to inform the medical community of generic issues identified in the NRC review of misadministrations.

The NRC is currently revising 10 CFR Part 35, including 10 CFR 35.32 and 33. NRC sought early input and will continue to seek input on the rulemaking through Federal Register notices, open meetings, public workshops, and by putting documents on the internet. The proposed rule will be published for comment for 75 days, and NRC plans to hold three public meetings during the formal comment period to facilitate public comment.

Submit, by July 6, 1998, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC. OMB clearance requests are available at the NRC worldwide web site (<http://www.nrc.gov>) under the FedWorld collection link on the home page tool bar. The document will be available on

the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at 301-415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 21st day of April 1998.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-409]

Dairyland Power Cooperative La Crosse Boiling Water Reactor; Notice of Receipt of the La Crosse Post-Shutdown Decommissioning Activities Report and Public Meeting

The NRC is in receipt of the La Crosse Boiling Water Reactor (LACBWR) Post-Shutdown Decommissioning Activities Report (PSDAR), as previously submitted by Dairyland Power Cooperative (the licensee) as the "LACBWR Decommissioning Plan." Therefore, in order to inform the public of the NRC's regulations regarding decommissioning and licensee's plans to decommission the LACBWR facility, the NRC staff will conduct a public meeting at the Viroqua High School, Middle School Complex—Large Lecture Hall, 100 Blackhawk, Viroqua, WI 64665, on May 13, 1998. The doors will open at 6:30 p.m. with the public meeting starting at 7:00 p.m. Mr. Geoffrey Banta, Sheriff, Vernon County, will chair the meeting. The meeting agenda includes a presentation by the NRC staff on the decommissioning regulatory process and the conduct of NRC inspections and a presentation by a Dairyland Power representative on the licensee's plans for the decommissioning of the LACBWR facility. Following the presentations, there will be an opportunity for members of the public to make comments or ask questions to the NRC staff and/or Dairyland Power representatives. This public meeting will be transcribed.

On April 30, 1987, LACBWR permanently ceased reactor power operations and on June 11, 1987, all

nuclear fuel was removed from the reactor vessel and placed in the Fuel Element Storage Well (FESW or spent fuel pool). Then, on December 21, 1987, the licensee submitted their Decommissioning Plan, Preliminary DECON Plan, and Supplement to the Environmental Report for the Post-Operating License Stage—SAFSTOR (Accession No. 8801150072, Microfiche No. 44034-1643). Within this submittal, the licensee described their plans to maintain the LACBWR facility in long-term storage until March 29, 2031, when license termination activities would commence. Dairyland Power then submitted an application for amendment of their Provisional License DPR-45 (Accession No. 8803020068, Microfiche No. 44547-332) on February 22, 1988, to reflect the permanently shutdown and defueled status of the LACBWR facility. The NRC staff published a "Notice of Consideration of Issuance of Amendment and Opportunity for Hearing" in the **Federal Register** on April 8, 1988 (53 FR 11718) and on August 7, 1991, the "Order to Authorize Decommissioning and Amendment No. 66 to Possession Only License No. 45 for La Crosse Boiling Water Reactor," was issued approving the LACBWR Decommissioning Plan. No request for hearing or petition to intervene was filed following notice of the proposed action.

Notwithstanding NRC approval of the LACBWR Decommissioning Plan, Parts 2, 50, and 51 of Title 10 to the Code of Federal Regulations (10 CFR parts 2, 50, and 51) were amended (61 FR 39278, dated July 29, 1996) changing some of the regulations governing the decommissioning of nuclear power facilities. The revised regulations (10 CFR 50.82) stated, in part, that for power reactor licensees who, before the effective date of the amended rule (August 28, 1996) possess an approved decommissioning plan (such as LACBWR), the plan is considered to be a Post-Shutdown Decommissioning Activities Report (PSDAR) in accordance with 10 CFR 50.82(a)(4)(i). Additionally, the NRC staff shall notice receipt of the PSDAR, make this report available for public comment, and shall conduct a public meeting in the vicinity of the licensee's facility (10 CFR 50.82(a)(4)(ii)). The NRC staff notes that Dairyland Power continues to maintain the LACBWR facility in long-term storage and that the licensee has not made significant changes to their decommissioning plans.

Copies of the PSDAR, as revised by the licensee, are available to the public from the NRC Public Document Room, Gelman Building, 2120 L Street NW,
