

EIS, which is available from the Gulf of Mexico OCS Region's Public Information Office at 1-800-200-GULF. The proposed action to be analyzed in this EA is the offering of all available unleased acreage in the CPA. The EA will also analyze alternatives to defer blocks south and within 15 miles of Baldwin County, Alabama, and to defer blocks containing topographic features with sensitive biological resources, as well as analyzing the no action alternative. The analysis in the EA will reexamine the potential environmental effects of the proposed action and alternatives based on any new information regarding potential impacts and issues that was not available at the time the final EIS was prepared.

The MMS requests interested parties to submit comments regarding any such new information or issues that should be addressed in the EA to the Minerals Management Service (MS 5410), Gulf of Mexico OCS Region, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394 by June 5, 1998. After completion of the EA, MMS will determine whether to prepare a Finding of No Significant Impact (FONSI) or a supplemental EIS. The MMS will then prepare and send to the affected States consistency determinations, which the States will review to determine whether the proposed sale is consistent with federally-approved State coastal zone management programs. The MMS will also send a proposed Notice of Sale to the Governors for their comments on the size timing, and location of the proposed sale. The tentative schedule for the steps in the prelease decision process for Sale 172 is listed below:

Comments due to MMS, June 5, 1998;

EA/FONSI or Supplemental EIS, October 1998;

Proposed Notice of Sale sent to Governors, October 1998;

Consistency Determinations sent to States, October 1998;

Final Notice of Sale, February 1999; and

Sale, March, 1999.
