As of the effective dates of the delegations, NDCNR has primary authority to enforce the standards listed above. EPA retains independent enforcement authority, and will exercise such authority in a manner consistent with EPA's "Timely and Appropriate Enforcement Response to Significant Air Pollution Violators" Guidance, and any revisions thereto, and applicable enforcement agreements.

As of the effective dates of the delegations, all notifications and reports required of sources by the above standards should be sent to NDCNR with a copy to EPA Region IX.

The EPA hereby notifies the public that it has delegated the authority over the above-listed NSPS and NESHAPS subparts to the State of Nevada, Department of Conservation and Natural Resources.

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

A Notice of Intent to Delete for this site was published April 3, 1998 (63 FR 16465). The closing date for comments on the Notice of Intent to Delete was May 4, 1998. EPA received no comments and therefore no Responsiveness Summary was prepared.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL in the unlikely event that conditions at the site warrant such action. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.
