Delegation of New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS) for the State of Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Delegation of authority.

SUMMARY: In 1990, 1991 and 1993, the State of Nevada, Department of Conservation and Natural Resources (NDCNR), requested delegation of authority for the implementation and enforcement of specified New Source Performance Standards (NSPS) and the National Emission Standards for Hazardous Air Pollutants (NESHAPS). EPA's review of the State of Nevada's laws, rules and regulations showed them to be adequate for the implementation and enforcement of these federal standards, and EPA granted the delegations as requested.

EFFECTIVE DATE: The effective dates of the delegation authority for the NDCNR agency are: September 10, 1992, February 24, 1993, and September 23, 1993.

ADDRESSES: Copies of the requests for delegation of authority and EPA's letters of delegation are available for public inspection at EPA's Region 9 office during normal business hours and at the following location: State of Nevada, Department of Conservation and Natural Resources, 333 W. Nye Lane, Carson City, NV 89710.

FOR FURTHER INFORMATION CONTACT: Cynthia G. Allen, Rulemaking Section (Air-4), Air Division, EPA, Region 9, 75 Hawthorne Street, San Francisco, CA 94105-3901, Tel: (415) 744-1189.

SUPPLEMENTARY INFORMATION: Section 301, in conjunction with sections 110, 111(c)(1), and 112(l)(1) of the Clean Air Act as amended in 1990, authorize the Administrator to delegate his or her authority to implement and enforce the standards set out in 40 CFR part 60, Standards of Performance for New Stationary Sources (NSPS) and 40 CFR part 61, National Emission Standards for Hazardous Air Pollutants (NESHAPS).

The State of Nevada requested authority for delegation of certain NSPS and NESHAPS categories. After a thorough review of the categories requested for delegation, the Regional Administrator, EPA Region IX determined that such delegation was

appropriate for these source categories. By letters dated September 10, 1992, February 24, 1993, and September 23, 1993, EPA delegated its authority for 40 CFR part 60 and part 61 for the following subparts:

NSPS	40 CFR part 60, subpart
Industrial-Commercial-Institutional Steam Generating Units.	Db
Small Industrial-Commercial-Institutional Steam Generating Units.	Dc
Municipal Waste Combustors	Ea
Petroleum Refineries	J
Volatile Organic Compound (VOC) Emissions from the Polymer Manufacturing Industry.	DDD
VOC Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Air Oxidation Unit Processes.	III
VOC Emissions from SOCMI Distillation Operations.	NNN
Calciners and Dryers in Mineral Industries.	UUU
NESHAPS	40 CFR part 61, subpart
Benzene Emissions from Benzene Transfer Operations.	BB
Benzene Waste Operations	FF

Under the terms of the delegations, NDCNR is required to follow all applicable provisions of 40 CFR parts 60 and 61, including but not limited to use of EPA's test methods and continuous monitoring procedures.

As of the effective dates of the delegations, NDCNR has primary authority to enforce the standards listed above. EPA retains independent enforcement authority, and will exercise such authority in a manner consistent with EPA's "Timely and Appropriate Enforcement Response to Significant Air Pollution Violators" Guidance, and any revisions thereto, and applicable enforcement agreements.

As of the effective dates of the delegations, all notifications and reports required of sources by the above standards should be sent to NDCNR with a copy to EPA Region IX.

The EPA hereby notifies the public that it has delegated the authority over the above-listed NSPS and NESHAPS subparts to the State of Nevada, Department of Conservation and Natural Resources.

The Office of Management and Budget has exempted this action from Executive Order 12866 review.

This notice is issued under the authority of sections 101, 110, 111, 112, and 301 of the Clean Air Act, as amended (42 U.S.C. sections 7401, 7410, 7412, 7412, and 7601).

(NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. This action is being taken by EPA and the State of Minnesota, because it has been determined that Responsible Parties have implemented all appropriate response actions required. Moreover, EPA and the State of Minnesota have determined that remedial actions conducted at the site to date remain protective of public health, welfare, and the environment.

EFFECTIVE DATE: May 21, 1998.

A Notice of Intent to Delete for this site was published April 3, 1998 (63 FR 16465). The closing date for comments on the Notice of Intent to Delete was May 4, 1998. EPA received no comments and therefore no Responsiveness Summary was prepared.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL in the unlikely event that conditions at the site warrant such action. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.
