

- *Priorities:* None
- *Eligible Applicants:* Eligibility is limited to Schools of Medicine, Osteopathy, Nursing, Dentistry, Social Work, and university-affiliated Departments of Psychology with an existing substance abuse prevention program or to Schools of Public Health or Residency Training Programs in Preventive Medicine without an existing substance abuse prevention program.

Applications from Schools of Medicine, Osteopathy, Nursing, Dentistry, Social Work, and university-affiliated Departments of Psychology must identify the School of Public Health or Residency Training Program in Preventive Medicine they will mentor in order to develop a substance abuse prevention program.

Applications from Schools of Public Health or Residency Training Programs in Preventive Medicine must identify the School of Medicine, Osteopathy, Nursing, Dentistry, Social Work or university-affiliated Department of Psychology which has an existing substance abuse prevention program and with whom they have established a mentoring relationship in order to assist them in establishing a substance abuse prevention program.

Eligibility is being limited to these particular entities because this program is limited to three years and the need for appropriately trained health care practitioners and the integration of state-of-the-art substance abuse prevention, screening, assessment, and referral strategies as standards of care is critical to reducing health care costs and improving health status. By capitalizing on the experience of the mentor agencies with existing substance abuse prevention programs, these partnerships will be able to complete their program within the allotted three years. Absent this pre-existing and continuing experience, completion within this time frame would not be possible.

- *Grants/Amounts:* It is estimated that up to \$1,000,000 will be available to support approximately ten new grant awards of approximately \$100,000 each (total costs—direct + indirect) under this GFA in FY 1998.

- *Catalog of Federal Domestic Assistance Number:* 93.274

5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (Standard form 424).
- b. A summary of the project (PHSIS), not to exceed one page, which provides:

- (1) A description of the population to be served.

- (2) A summary of the services to be provided.

- (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if a particular FY 1998 activity described above is/is not subject to the Public Health System Reporting Requirements.

6. PHS Non-use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the

physical and mental health of the American people.

7. Executive Order 12372

Applications submitted in response to the FY 1998 activity listed above are not subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100.

Dated: May 20, 1998.
