This offer of special equipment must be made to new subscribers at the time they subscribe, to all subscribers at least once each year, and to subscribers that make such requests at any time. Section 76.630(d) states that cable system operators shall provide a consumer education program on compatibility matters to their subscribers in writing. The information shall be provided to subscribers at the time that they first subscribe and at least once a year thereafter, and may be included in one of the cable system's regular subscriber billings. The Commission has set forth these disclosure requirements for consumer protection purposes, to inform subscribers of compatibility matters, and notify subscribers of cable operators' requests to waive the prohibition on signal encryption.
