BILLING CODE 4910-62-P

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Reports, Forms and Recordkeeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: Office of the Secretary, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and approval. The ICR describes the nature of the information collections and its expected burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on March 16, 1998 [63 FR 12858].

DATES: Comments must be submitted on or before August 5, 1998.

FOR FURTHER INFORMATION CONTACT: Michael Robinson, NHTSA Information Collection Clearance Officer at (202) 366-9456.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration (NHTSA)

Title: 1998 Motor Vehicle Occupant Safety Survey.

OMB Control Number: 2127—New.

Type of Request: New collection.

Form(s): DTHH22-98-R-05080.

Affected Public: Individuals or households.

Abstract: NHTSA proposes to conduct a 1998 Motor Vehicle Occupant Safety Survey by telephone among a national probability sample of 8,000 adults (age 16 and older). Participation by respondents would be voluntary. NHTSA's information needs require seat

belt and child safety seat sections too large to merge into a single survey instrument without producing an inordinate burden on respondents. Rather than reduce these sections, the proposed survey instrument would be divided into two series of modules. Each module would be administered to one-half the total number of subjects to be interviewed. Module Series #1 of the questionnaire would focus on seat belts and include smaller sections on air bags, motorcyclist safety, and general driving (including speed). Module Series #2 would focus on child safety seats, accompanied by smaller sections on bicyclist safety and Emergency Medical Services. Both series would contain sections on crash injury experience, and on drinking and driving because of the extensive impact of alcohol on the highway safety problem. Some basic seat belt questions contained in Module Series #1 would be duplicated on Module Series #2. In conducting the proposed survey, the interviewers would use computer-assisted telephone interviewing to reduce interview length and minimize recording errors. A Spanish-language translation and bilingual interviewers would be used to minimize language barriers to participation. The proposed survey would be anonymous and confidential.

Description of the Need for the Information and Proposed Use of the Information—The National Highway Traffic Safety Administration (NHTSA) was established to reduce the mounting number of deaths, injuries and economic losses resulting from motor vehicle crashes on the Nation's highways. As part of this statutory mandate, NHTSA is authorized to conduct research as a foundation for the development of motor vehicle standards and traffic safety programs.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725—17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication.

Issued in Washington, DC, on June 26, 1998.
