

data into SFIP, EPA is also working to include the 1996 production/capacity data because this is now the most relevant measure of facility size. As a result, the ratio of TRI releases and transfers/production will now include the 1996 production data. The 1996 year production or production capacity data for each of the SFIP facilities are now available on the SFIP Internet website with two exceptions:

(1) If a facility provided adequate documentation to support a change in its 1995 production value, this value is retained for 1996.

(2) If 1996 production/capacity information is not available, but 1995 year information is available and the facility is known to be in full operation.

The production or production capacity data are available for review and comment by the facilities. As was done during the data quality assurance review undertaken in the Fall of 1997, facilities may request a change in the production/capacity values by submitting a written request along with supporting documentation to the address below. Note that the basis of this value will not be changed (e.g., from capacity to actual production). All submissions should be postmarked by July 17, 1998, and sent to: SFIP, 55 Wheeler Street, Cambridge, MA 02138.

DATES: The 1996 production/capacity information to be incorporated within the SFIP is currently available for facility review until July 17, 1998.

ADDRESSES: Data may be accessed electronically via the Internet at the following address: <http://www.epa.gov/oeca/sfi>

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Commission To Hold Bandwidth en banc Hearing July 9, 1998

June 30, 1998.

The Federal Communications Commission will hold an en banc hearing on Thursday, July 9, 1998, from

11:00 a.m. to 1:00 p.m., in the Commission Meeting Room (Room 856) at 1919 M. Street, NW., Washington, DC.

At the en banc hearing, the Commission will hear from panels of experts regarding bandwidth issues in the last mile of our nation's telecommunications infrastructure and in connectivity to and between our nation's small and rural communities. The panelists will also address how these issues impact the deployment of advanced telecommunications capabilities and broadband technologies in the United States.

The en banc is open to the public, and seating will be available on a first come, first served basis. The meeting can be viewed over George Mason University's Capitol Connection. For information on this service call (703) 993-3100. The en banc will also be carried live on the Internet. Internet users may listen to the real-time audio feed of the en banc by accessing the FCC Internet Audio Broadcast Home Page. Step-by-step instructions on how to listen to the audio broadcast, as well as information regarding the equipment and software needed, are available on the FCC Internet Audio Broadcast Home Page. The URL address for this home page is <http://www.fcc.gov/realaudio/>.

A transcript of the en banc will be available 10 days after the event on the FCC's Internet site. Transcripts may be obtained from the FCC's duplicating contractor, International Transcription Service, 1231 20th Street, NW., Washington, DC 20036, by calling ITS at (202) 857-3800 or faxing ITS at (202) 857-3805. Audio and video tapes of the En banc may be purchased from Infocus, 341 Victroy Drive, Herndon, VA 20170, by calling Infocus at (703) 834-0100 or by faxing Infocus at (703) 834-0111. The URL address for the FCC's Internet Home Page is <http://www.fcc.gov>.

For additional information contact: Marcelino Ford-Livene at (202) 418-2030; News media contact: Audrey Spivack (202) 418-0500; TTY access available at (202) 418-2555.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.
