

videos, and sound recordings; recreational films and videos; and library sound recordings.

These items are nonrecord. The aerial photographs (GRS 17/2a and b) are described as "unannotated duplicate (s)" and "unannotated prints when original film negatives exist." Architectural models are three-dimensional objects not normally considered documentary records. The audiovisual materials are described as "duplicate items in excess of record elements required for and films and videos "acquired from outside sources for personnel entertainment and recreation," and "library sound recordings." As such they do not meet the definition of Federal records, and therefore should be removed from the GRS. The disposition of the materials described by these GRS items should be provided in guidance, not records schedules. In order to preserve the numbering of the remaining items in these schedules, these items should be reserved.

Dated: July 31, 1998.

Geraldine N. Phillips,

Acting Assistant Archivist for Records Services—Washington, DC.
