[FRL-6146-3]

Science Advisory Board Emergency Cancellation of a Public Advisory Committee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the August 18-19 meeting of the Environmental Health Committee of the Science Advisory Board (SAB) has been canceled. This meeting had been announced in the **Federal Register** August 5, 1998 (63 FR 41820-41821). The meeting will be rescheduled as soon as practical. The new meeting date will be announced in the **Federal Register**.

Anyone desiring additional information should contact Ms. Roslyn A. Edson, Designated Federal Official, Science Advisory Board (1400), USEPA, 401 M Street, SW, Washington DC 20460, telephone (202) 260-3823, fax (202) 260-7118, or Email on: edson.roslyn@epamail.epa.gov

Dated: August 11, 1998.

John R. Fowle, III,

Acting Staff Director, Science Advisory Board.

Novartis Seeds; Approval of a Pesticide Product Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application submitted by Novartis Seeds to conditionally register the plant pesticide Attribute Insect Protected Sweet Corn involving a changed use pattern of the product pursuant to the provisions of section 3(c)(7)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Michael Mendelsohn, Biopesticides and Pollution Prevention Division (7511C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 14, 9th floor, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703) 308-8715; e-mail: mendelsohn.mike@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register**-Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of September 10, 1997 (62 FR 47663) (FRL-5740-5), which announced that Rogers Seed Company, 600 N. Armstrong Place, Boise, ID 83704, (now Novartis Seeds), had submitted an application to register the plant pesticide product Attribute Insect Protected Sweet Corn (EPA File Symbol 65268-R) containing the active ingredient *Bacillus thuringiensis* CryIA(b) delta-endotoxin and the genetic material (plasmid vector pZO1502) necessary for its production in corn at 0.0002-0.0006 percent involving a changed use pattern, to include in its presently registered use on field corn, a new use of the Bt. protein plant pesticide active ingredient for the control of the European Corn Borer and Corn Earworm in sweet corn.

The application was approved on February 27, 1998, as Attribute Insect Protected Sweet Corn involving a changed use pattern, to include in its presently registered use, a new use on sweet corn (EPA Registration Number 65268-1).

A conditional registration may be granted under section 3(c)(7)(B) of FIFRA for a product involving a changed use pattern where certain data are lacking, on condition that such data are received as specified by EPA and the applicant has submitted satisfactory data pertaining to the proposed additional use and the amended registration would not significantly increase the risk of any unreasonable adverse effect.

The Agency has considered the available data on the risks associated with the proposed use of *Bacillus thuringiensis* CryIA(b) delta-endotoxin and the genetic material (plasmid vector pZO1502) necessary for its production in corn, and information on social, economic, and environmental benefits to be derived from such use. Based on these reviews, the Agency was able to make basic environmental, health, and safety determinations which show that use of *Bacillus thuringiensis* CryIA(b) delta-endotoxin and the genetic material (plasmid vector pZO1502) necessary for its production in corn consistent with the terms and conditions of registration during the period of conditional registration will not significantly increase the risk of unreasonable adverse effect on the environment. These products are conditionally registered in accordance with FIFRA section 3(c)(7)(B).

These requirements listed below must be complied with:

1. Sale of commercial sweet corn production only.
2. Corn stalks must be destroyed 1-month after harvest.
3. Insect resistance management data.
4. Monitoring for resistance.
5. *Collembola* and *Daphna magna* study.

If the conditions are not complied with the registration will be subject to cancellation in accordance with FIFRA section 6(e). The registration will automatically expire on midnight April 1, 2001.

More detailed information on the conditional registration is contained in an EPA Pesticide Fact Sheet on *Bacillus thuringiensis* CryIA(b) delta-endotoxin and the genetic material (plasmid vector pZO1502) necessary for its production in corn.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and
