SUPPLEMENTARY INFORMATION:

A. Purpose

These regulations implement the statutory requirements of the Miller Act (40 U.S.C. 270a-270e), which requires performance and payment bonds for any construction contract exceeding \$100,000, unless it is impracticable to require bonds for work performed in a foreign country, or it is otherwise authorized by law. In addition, the regulations implement the note to 40 U.S.C. 270a, entitled "Alternatives to Payment Bonds Provided by the Federal Acquisition Regulation," which requires alternative payment protection for construction contracts that exceed \$25,000 but do not exceed \$100,000. Although not required by statute, under certain circumstances the FAR permits the Government to require bonds on other than construction contracts.

This information collection extension also incorporates the information collection requirements currently approved under 9000-0119.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Affidavit of Individual Surety (Standard Form (SF) 28) is used by all executive agencies, including the Department of Defense, to obtain information from individuals wishing to serve as sureties to Government bonds. In order to qualify as a surety on a Government bond, the individual must show a net worth not less than the penal amount of the bond on the SF 28. It is an elective decision on the part of the maker to use individual sureties instead of other available sources of surety or sureties for Government bonds. We are

not aware if other formats exist for the collection of this information.

The information on SF 28 is used to assist the contracting officer in determining the acceptability of individuals proposed as sureties.
