

Junior D. Kerns), Yuma Proving Ground, AZ 85365.

FOR FURTHER INFORMATION CONTACT: Mr. Junior D. Kerns at (520) 328-2148.

SUPPLEMENTARY INFORMATION: Resources discussed in the draft are climate, air, water, geology and soils, biology, cultural resources, socioeconomics, land use, noise, hazardous materials/waste management, radiation, health and safety, aesthetic values, utilities, and transportation. Situated in southwestern Arizona, the installation is a desert evaluation and test center with premier facilities for testing military materiel.

The proposed action is the conversion of YPG from a traditional Army test installation to a diversified, multipurpose test range. The multipurpose test installation will integrate training, privatization, and other mission-compatible uses with research, development, test, and evaluation activities indicated in the Installation Master Plan and other applicable planning documents. This proposed action supports the defense mission of the United States to maintain a prepared and technologically advanced military.

Five alternatives are considered: (1) Maintain baseline activity levels (no action), (2) decreased military mission, (3) increased military mission, (4) modified nonmilitary mission, and (5) diversified mission. Impacts of each alternative are disclosed in accordance with the National Environmental Policy Act. The Army will develop a preferred alternative after consideration of impacts described in the Draft EIS and public comment.

Comments may also be submitted via phone at (800) 330-1348.

Dated: August 13, 1998.

Raymond J. Fatz,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health) OASA(I,L&E).

BILLING CODE 3710-08-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP98-712-000]

Florida Gas Transmission Company; Notice of Request Under Blanket Authorization

August 12, 1998.

Take notice that on August 6, 1998, Florida Gas Transmission Company (FGT), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP98-

712-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations (18 CFR 157.205, 157.212) under the Natural Gas Act (NGA) for authorization to modify an existing gas measurement station for use as a delivery point in Jefferson County, Texas, under FTG's blanket certification issued in Docket No. CP82-553-000, pursuant to Section 7 of the NGA, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

FGT states that the measurement station was authorized by the Commission under budget-type certification authorization in Docket No. CP79-302 and placed in service as a receipt point in 1981. FGT now proposes to modify the facilities so that they can be used for deliveries to Midcon Texas Pipeline Operator, Inc. (Midcon). FGT asserts that no customers are presently receiving gas at this measurement station and FGT does not anticipate any future use of the facilities to receive gas into its system.

It is stated that the facilities will be used to deliver up to 100,000 MMBtu equivalent of natural gas on a peak day and 36,500,000 MMBtu equivalent on an annual basis to Midcon. It is explained that the end-use of the gas would be commercial, industrial and residential. It is stated that FGT's FERC Gas Tariff does not prohibit additional delivery points. It is explained that the volume of gas delivered to Midcon will be within existing authorized levels of service and that the proposal will not have any adverse impact on FGT's peak day and annual deliveries. It is asserted that FGT has sufficient capacity to continue all services without detriment or disadvantage to FGT's other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for

authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,

Acting Secretary.
