August 14, 1998.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydropower Licensing has reviewed the applications for an original license for the Edenville, Second, and Smallwood Hydroelectric Projects, located on the Tittabawassee River, in Gladwin County, Michigan, and has prepared a Final Multiple Project Environmental Assessment (FEA) for the projects. In the FEA, the Commission's staff has analyzed the potential environmental impacts of the existing unlicensed projects and has concluded that approval of the project, with appropriate environmental protection measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 2-A, of the Commission's offices

at 888 First Street, NE, Washington, DC 20426.
