The Engine HWG is requesting a vote for formal FAA economic and legal review for two draft notices. One draft notice proposes to amend the rotor integrity (overspeed type certification standards for the issuance of original and amended type certificates for aircraft turbine engines. The other draft notice proposes to change the fire protection standards for the issuance of original and appropriate amended type certificates for aircraft engines.

Further, the Loads and Dynamics HWG is requesting a vote for formal FAA economic and legal review for a draft notice to revise the checked pitching maneuver design load requirements for transport category airplanes. The working group is also requesting a vote to submit to the FAA for publication an advisory circular on taxi, takeoff and landing roll design loads.

Attendance is open to the public, but will be limited to the space available. The public must make arrangements by September 11, 1998, to present oral statements at the meeting. Written statements may be presented to the Committee at any time by providing 25 copies to the Assistant Executive Director for Transport Airplane and Engine issues or by providing copies at the meeting. Copies of the documents to be voted upon may be made available by contacting the person listed under the heading **FOR FURTHER INFORMATION CONTACT**.

In addition, sign and oral interpretation as well as a listening device, can be made available if requested 10 calendar days before the meeting.

Issued in Washington, DC on August 14, 1998.
