

Third Revised Sheet No. 97
Third Revised Sheet No. 98
Second Revised Sheet No. 140

Kern River states that the purpose of this filing is to submit tariff sheets (1) to streamline its administrative processes for Rate Schedules KRF-1 and KRI-1, (2) to clarify the bumping provision in Section 13.2(b) of its General Terms and Conditions, (3) to eliminate unnecessary language in the curtailment procedures in Section 13.3(a)(iii) of its General Terms and Conditions, and (4) to specify that available pools and related receipt points will be listed on Kern River's EBB and designated site instead of in its tariff, and that changes to the number of composition of such pools will be reflected on the EBB and designated site at least 10 days prior to such changes being implemented.

Kern River states that a copy of this filing has been served upon its customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Mississippi River Transmission Corporation; Notice of Tariff Filing

October 28, 1998.

Take notice that on September 16, 1998, Mississippi River Transmission Corporation (MRT) tendered for filing as part of the General Terms and Conditions to FERC Gas Tariff, Third Revised Volume No. 1, certain revised tariff sheets. On October 14, 1998, 85 FERC ¶ 61,049, the FERC accepted such revised tariff sheets subject to MRT's filing, within ten (10) days of the Order's issuance, revised tariff sheets in compliance with the terms of the October 14, 1998 order with an effective date of March 17, 1999 or earlier, subject to the technical conference to be convened in this proceeding.

MRT states that the following revised tariff sheets are filed in compliance with the October 14, 1998 order, and without waiving MRT's right to request clarification and/or rehearing of the issues raised in the October 14, 1998 order:

Substitute Original Sheet No. 99-A

Substitute Original Sheet No. 99-B

Substitute Original Sheet No. 99-C

Substitute Original Sheet No. 99-D

Substitute Original Sheet No. 99-E

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public

inspection in the Public Reference Room.

Northern Natural Gas Company; Notice of Filing of Revised Rates and Motion To Place Suspended Rates, as Revised, and Suspended Tariff Sheets Into Effect

October 28, 1998.

Take notice that on October 23, 1998, Northern Natural Gas Company tendered for filing as part of its FERC Gas Tariff certain rate tariff sheets identified on Attachment A to the filing. Northern has moved that such rates and tariff sheets be placed in effect on November 1, 1998.

Northern states that copies of its filing have been mailed to all of Northern's customers and interested State Commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. CP99-25-000]

Petal Gas Storage Company; Notice of Application

October 28, 1998.

Take notice that on October 20, 1998, Petal Gas Storage Company (Petal), 229 Milam Street, Shreveport, Louisiana, 71101, filed in Docket No. CP99-25-000 an application pursuant to Section 7 of the Natural Gas Act for authorization to construct and operate a second underground, salt dome cavern in Mississippi for the storage of natural gas and to construct and operate related facilities necessary to provide firm and interruptible gas storage service to others, on a self-implementing basis with pre-granted abandonment authorization and at market based rates.

It is stated that Petal, a wholly-owned subsidiary of Crystal Oil Company, was authorized on August 4, 1993, in Docket

No. CP93-69-000 to construct and operate facilities related to a first storage cavern in Forrest County, Mississippi. Petal states that it is proposing to construct a second storage cavern. Petal also states that the second cavern represents the initial phase of a long-term planned expansion of Petal's services. It is stated that Phase I, the focus of the subject filing, is limited in scope, in that, Petal requests authorization to drill one well, leach a salt storage cavern with a storage capacity of 5.2 Bcf and install 825 feet of flow lines. Petal states that it does not intend to use the power of eminent domain. Petal further states all construction activity, except for 412 feet of flow lines on an easement to be acquired by Petal from Dynegey Midstream Services Limited Partnership, will take place on a 10.89 acre tract that was subject to environmental review in Docket No. CP93-69-000 and that Petal owns in fee.

Petal states that Phase II of the expansion project is still in the planning process; however, it is anticipated that Phase II will involve the construction of additional pipeline facilities in order to facilitate bi-directional interconnects with Transcontinental Gas Pipe Line Corporation, Southern Natural Gas Company, Destin Pipeline Company, L.L.C., the Koch Gateway Pipeline Company (Koch Gateway) high pressure system, and Florida Gas Transmission Corporation, which, in tandem with Petal's current interconnections with Tennessee Gas Pipeline Company and the Koch Gateway low pressure system, will provide added flexibility and enable Petal to access new markets. Petal states that if it does not pursue the Phase II project in conjunction with the development of the second storage cavern, it will operate both the first and second storage caverns as a single storage facility for the benefit of both existing and new customers.

Petal states that it has entered into a precedent agreement for firm storage service which covers at least 31 percent of the storage capacity available from the second cavern. In addition, Petal states that all available capacity in the first cavern is fully utilized. Further, Petal states that the existing contract commitments for service from the first storage cavern and the precedent agreement cover 62 percent of the storage capacity from the first and second caverns. Petal states that since it plans to operate the two caverns as a single storage facility, customers will have access to capacity in both storage caverns up to the total quantity reflected in their contracts.

It is stated that upon completion of the second cavern, the two storage caverns will be capable of a combined average daily injection rate of 160,000 Mcf per day, allowing customers to fill the working gas capacity in as little as 40 days, and an average combined daily withdrawal rate of 640,000 Mcf per day, allowing customers to completely withdraw gas in 10 days.

Petal proposes to offer its storage services at market-based rates. No cost data or revenue projections were submitted with this proceeding because Petal is requesting a waiver of those Commission Regulations requiring said submission.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before November 9, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order.

However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process.
