

Basis for finding of no significance: 1. The proposed amendment will not result in a change in the types or significant increase in the amounts of any effluents that may be released offsite.

Operations at the gaseous diffusion plants will remain unchanged. The proposed action is to add three conditions of transfer to the certificates of compliance. There will be no change to the types or amount of effluents that may be released offsite.

2. The proposed amendment will not result in a significant increase in individual or cumulative occupational radiation exposure.

The proposed amendments will not increase any exposure to radiation. The action is solely an administrative action. Therefore, the changes will not result in a significant increase in individual or cumulative radiation exposure.

3. The proposed amendment will not result in a significant construction impact.

The proposed amendment will not result in any construction; therefore, there will be no construction impacts.

4. The proposed amendment will not result in a significant increase in the potential for, or radiological or chemical consequences from, previously analyzed accidents.

The proposed administrative amendments to add the conditions of transfer to the certificates of compliance have no impact on the potential for or occurrence of an accident or the resulting consequences. Therefore, these changes will not increase the probability of occurrence or consequence of any postulated accident currently identified in the safety analysis reports.

5. The proposed amendment will not result in the possibility of a new or different kind of accident.

The proposed amendments will not create the possibility of a new or different type of equipment malfunction or a new or different type of accident.

6. The proposed amendment will not result in a significant reduction in any margin of safety.

The proposed amendments to add conditions to the certificates of compliance will have no impact on the margin of safety. Therefore, these changes do not decrease the margins of safety.

7. The proposed amendment will not result in an overall decrease in the effectiveness of the plant's safety, safeguards or security programs.

Implementation of the proposed amendments does not change the safety, safeguards, or security programs. Therefore, the effectiveness of the safety, safeguards, and security

programs is not decreased. In approving the transfer, the Commission determined that the transfer would not be inimical to the common defense and security of the United States.

Effective date: The amendments to Certificates of Compliance GDP-1 and GDP-2 become effective immediately upon being signed by the Director, Office of Nuclear Material Safety and Safeguards.

Certificates of Compliance GDP-1 and GDP-2: Amendments will revise the certificates of compliance to add three conditions of transfer related to foreign ownership, control or domination and the Russian High Enriched Uranium Agreement.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Subcommittee Meeting on Plant License Renewal

The ACRS Subcommittee on Plant License Renewal will hold a meeting on November 18, 1998, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, November 18, 1998—8:30 a.m. until the conclusion of business.

The Subcommittee will discuss generic issues related to license renewal activities and the schedule for their resolution, selected technical and topical reports and the associated safety evaluation reports, status of the staff's review of the applications for renewing licenses for Calvert Cliffs and Oconee Nuclear Power Plants, and related matters. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the

concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Dr. Medhat El-Zeftawy (telephone 301/415-6889) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: October 29, 1998.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.
