The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of supplemental environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. Vermont Yankee Nuclear Power Corp. v. NRDC, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft supplemental environmental impact stage but that are not raised until after completion of the final supplemental environmental impact statement may be waived or dismissed by the courts. City of Angoon v. Hodel, 803 F.2d 1016, 1022 (9th Cir. 1986) and Wisconsin Heritages, Inc. v. Harris, 490 F.Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final supplemental environmental impact

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the supplemental EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the supplement. Comments may also address the adequacy of the supplement or its merits. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995, Pub. L. 104–13.

Bureau: International Trade Administration.

Title: Internet Export Finance Matchmaker.

OMB Number: None.

Type of Request: Regular Submission.

Burden: 333 hours.

Number of Respondents: 1700. Avg. Hours Per Response: Exporters, 10 minutes; Export Service Firms, 30 minutes.

Needs and Uses: The Office of Finance assists U.S. firms in identifying trade finance opportunities and promotes the competitiveness of U.S. financial services in international trade. The Office of Finance interacts with private financial institutions in insurance, banking, leasing, factoring, barter, and counter trade; U.S. financing agencies, such as the Export-Import Bank and the Overseas Private Investment Corporation; and multilateral development banks, such as the World Bank, Asian Development Bank, and others. To facilitate contact between exporters and financial institutions, the Office of Finance is developing an interactive Internet trade finance matchmaking program to link exporters seeking trade finance with banks and other financial institutions. The information collected from financial institutions regarding the trade finance products and services they offer will be compiled into a database. An exporter will be able to electronically submit a form identifying the potential export transaction and type of financing requested. This information will be electronically matched with the financial institution(s) that meet the requirements of the exporter. After a match has been made, a message will be electronically sent to both the exporter and the financial institution containing
