

consolidate training functions at RTC Yorktown and Aviation Technical Training Center (ATTC) Elizabeth City, North Carolina.

3. Fill the unused classroom and dormitory spaces at all the training centers with non-training functions.

4. Maintain the status quo.

Training Center (TRACEN) Petaluma, California; TRACEN Cape May, New Jersey; Reserve Training Center (RTC) Yorktown, Virginia; and Aviation Technical Training Center (ATTC) Elizabeth City, North Carolina, would be directly affected by the "action" alternatives. Minor components of other Coast Guard facilities currently in leased spaces in Wildwood, NJ, Oklahoma City, OK, and Chesapeake, VA, may also be involved in the actions resulting from the OTI Initiative. The number of people affected at these facilities would be small in comparison to the total facility population; therefore, environmental and socioeconomic impacts to these facilities and host communities are expected to be minimal.

At the end of the 30-day public comment period announced in this notice and after considering input from the public, the Coast Guard will prepare the PEA. The PEA will evaluate a full range of resources for each alternative, including socio-economics, land use, infrastructure/transportation, hazardous materials and waste management, biological resources, cultural resources, air quality, noise, and water resources and will also identify a preferred alternative. Other resources, including geology, soils, and bathymetry, are not expected to be affected from the action and may not be evaluated in detail.

Once the PEA is approved for public review by the Commandant of the Coast Guard, it will be widely distributed. The PEA is anticipated to be available for public review in March 1999. This will once again be announced in the **Federal Register** and a second 30-day public comment period will follow to provide the public with the opportunity to comment on the environmental assessment. Formal hearings will be held at all communities in which there is substantial public interest. At the conclusion of this public comment period, the Commandant will weigh appropriate information and make a final decision. The NEPA process will conclude with the publication of this decision in the **Federal Register**.

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****RTCA; Certification Task Force**

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., Appendix 2), notice is hereby given that the next plenary meeting of the RTCA Certification Task Force will be held December 2, 1998, starting at 9:00 a.m., at RTCA, 1140 Connecticut Avenue NW., Suite 1020, Washington, DC. This task force is reviewing the "end-to-end" certification of advanced avionics systems and, keeping safety as a first priority, developing recommendations for improving the timeliness and reducing the costs of certification.

This meeting agenda will include: (1) Welcome and Introductory Remarks by Task Force Co-chairs Mr. Tony Broderick (former FAA associate administrator and now consultant to Airbus and Mr. Ed Stimpson (General Aviation Manufacturers Association); (2) Task Force Working Group Presentations. The presentations will focus on initial observations and will outline initial recommendations. Time will be allocated for questions, answers, and general discussion.

Attendance is open to the interested public but limited to space availability. With the approval of the co-chairmen, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact RTCA at (202) 833-9339 (phone), (202) 833-9434 (fax), or dclarke@rtca/org (e-mail). Members of the public may present a
