Plastic Processor Installations on Navy Ships

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: In accordance with the Act to Prevent Pollution from Ships, 33 U.S.C. 1902(e)(4)(B), the Secretary of Defense must report, beginning October 1, 1996, and each year until October 1, 1998, a list of the names of ships equipped with plastic processors. This notice is the third and final annual report.

FOR FURTHER INFORMATION CONTACT: Mr. Louis Maiuri, Office of the Chief of Naval Operations Environmental Protection, Safety and Occupational Health Division, Crystal Plaza #5, Room 654, 2211 South Clark Place, Arlington, Virginia, 22244-5108; 703-602-2602.

SUPPLEMENTARY INFORMATION: The International Maritime Convention on the Prevention of Pollution from Ships (MARPOL), as amended by the MARPOL Protocol of 1978, protects the ocean environment by prohibiting some discharges altogether, restricting other discharges to particular distances from land, and establishing "special areas" within which additional discharge limitations apply. One of the discharges specified for restriction under MARPOL Annex V is plastics.

The Act to Prevent Pollution from Ships, 33 U.S.C. 1902(e)(2), requires Navy ships equipped with plastics processors to comply with MARPOL Annex V provisions for the disposal of plastics. The law also establishes an installation schedule for plastic processor equipment aboard Navy ships. The first production unit was required to be installed by July 1, 1996, onboard a ship owned or operated by the Navy. At least 25 percent of Navy ships requiring processors were to be equipped by March 1, 1997. At least 50 percent of ships requiring processors were to be equipped by July 1, 1997. No less than 75 percent of ships requiring processors were to be equipped by July 1, 1998, and all vessels requiring plastics processors shall be equipped by December 31, 1998. The statute further requires the Secretary of Defense to report in the **Federal Register** the list of

the names of Navy ships equipped with plastic processors.

This **Federal Register** notice is the third and final required annual report. On October 1, 1998, 177 ships had been equipped with plastic processors. Plastic processors have now been installed on 94 percent of those ships requiring this equipment. Completion of plastic processor installations on 100 percent of Navy ships requiring this equipment will be completed by December 31, 1998. The list of 177 Navy ships equipped with plastic processors as of October 1, 1998 follows.
