

The ODCM provides the parameters and methodology to be used to calculate offsite doses and effluent monitor setpoints. Each effluent pathway used by the licensee must be accounted for in the ODCM. The licensee has procedures to monitor and quantify airborne releases, although, at the time of this review, the ODCM did not contain parameters or a methodology for a release path from the SFB roof hatch. However, there is no requirement to develop that information until the release path is used.

In summary, a release from the SFB doors and roof hatch from air cooling the SFP is required to be within regulatory limits. Before the air cooling method could be used, the licensee would have to perform a safety evaluation in accordance with 10 CFR 50.59 and revise its ODCM. In the event that the SFB doors and roof hatch are actually used for cooling the SFP, the release path must be monitored and actions taken to meet regulatory limits. However, there is no requirement to revise the ODCM unless the licensee, in fact, uses the air cooling method.

#### V. Decision

For the reasons stated above, the petition is denied in part and granted in part. The request to suspend the operating license is denied. The request to investigate the licensee's proposal to air cool the SFP is granted. The investigation is presented as the review in Section IV above. The decision and the documents cited in the decision are available for public inspection in the Commission's Public Document Room, the Gelman Building, 2210 L Street NW., Washington, D.C., and at the Local Public Document Room for the Haddam Neck Plant at the Russell Library, 123 Broad Street, Middletown, Connecticut.

In accordance with 10 CFR 2.206(c), a copy of this decision will be filed with the Secretary of the Commission for the Commission's review. As provided for by this regulation, the decision will constitute the final action of the Commission 25 days after issuance, unless the Commission, on its own motion, institutes a review of the Decision within that time.

Dated at Rockville, Maryland, this 16th day of November 1998.

### Notice of Computer Matching Program, Social Security Administration (SSA) With the Department of the Treasury, Bureau of Public Debt (BPD)

#### A. Participating Agencies

SSA and BPD.

#### B. Purpose of the Matching Program

The purpose of this matching program is to establish conditions and procedures for BPD's disclosure of certain savings bond information useful to SSA in verifying eligibility and payment amounts of individuals under the supplemental security income (SSI) program. The SSI program was created under title XVI of the Social Security Act (the Act) to provide benefits under the rules of that title to individuals with income and resources below levels established by law and regulations.

#### C. Authority for Conducting the Matching Program

Sections 1631(e)(1)(B) and (f) of the Act (42 U.S.C. 1383(e)(1)(B) and (f)).

#### D. Categories of Records and Individuals Covered by the Match

SSA will provide BPD with a finder file, extracted from SSA's Supplemental Security Income Record System, containing Social Security numbers of individuals who have applied for or receive SSI payments. This information will be matched with BPD files in BPD's savings bond registration system of records (United States savings-type securities) and a reply file of matched records will be furnished to SSA. Upon receipt of BPD's reply file, SSA will match identifying information from the BPD file with SSA's records to determine preliminarily whether the data pertain to the relevant SSI applicant or recipient before beginning the process of verifying bond ownership and taking any necessary benefit actions.

#### E. Inclusive Dates of the Match

The matching program shall become effective upon signing of the agreement by both parties to the agreement and approval of the agreement by the Data Integrity Boards of the respective agencies, but no sooner than 40 days after notice of this matching program is sent to Congress and the Office of Management and Budget, or 30 days after publication of this notice in the **Federal Register**, whichever date is later.

The matching program will continue for 18 months from the effective date
