

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****[14 CFR Part 71]****[Airspace Docket No. 98-AEA-30]****Amendment to Class E Airspace; East Hampton, NY****AGENCY:** Federal Aviation Administration (FAA) DOT.**ACTION:** Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet Above Ground Level (AGL) at East Hampton, NY. The development of Standard Instrument Approach Procedures (SIAP) based on the VHF Omnidirectional Radio Range (VOR), Distance Measuring Equipment (DME), Area Navigation (RNAV) and Global Positioning System (GPS) at East Hampton Airport, NY, has made this action necessary. This action is intended to provide adequate Class E airspace for instrument flight rules (IFR) operations by aircraft executing the VOR/DME RNAV or GPS RWY 28 SIAP, VOR/DME RNAV or GPS RWY 10 SIAP and VOR or GPS-A SIAP to East Hampton Airport.

EFFECTIVE DATE: 0901 UTC, January 28, 1999.

SUPPLEMENTARY INFORMATION:**History**

On October 2, 1998, a notice proposing to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to amend the Class E airspace at East Hampton, NY, was published in the **Federal Register** (63 FR 53001). The development of the VOR/DME RNAV or GPS RWY 28 SIAP, VOR/DME RNAV or GPS RWY 10 SIAP and VOR or GPS-A SIAP for East Hampton Airport requires that amendment of the Class E airspace at East Hampton, NY. The notice proposed to amend controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA.

No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designations for airspace extending upward from 700 feet AGL are published in paragraph 6005 of FAA Order 7400.9F, dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) amends Class E airspace at East Hampton, NY, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the VOR/DME RNAV or GPS RWY 28 SIAP, VOR/DME RNAV or GPS RWY 10 and VOR or GPS-A SIAP to East Hampton Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Polices and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUMMARY: The FAA is correcting the preamble of a previously published final rule regarding the regulations that require an access investigation for unescorted access privileges to security areas at airports. The corrections are, in most cases, typographical; however by this correction the FAA is also updating the information on the cost of the fingerprint processing. No changes to the previously published amendatory language are included.
