DEPARTMENT OF ENERGY

Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Subsequent Arrangement.

SUMMARY: Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Agreement for Cooperation Between the Government of the United States of America and the Government of the Argentine Republic Concerning Peaceful Uses of Nuclear Energy.

The subsequent arrangement to be carried out under the above-mentioned agreement involves the approval, pursuant to paragraph 2 of Article 6 of the agreement, of the alteration in form or content of irradiated highly enriched uranium (HEU). The activity consists of dissolving precipitated HEU from stainless steel filters, used in the process of producing medical isotopes, for the purpose of cleaning the filters for reuse. This action does not involve approval for the recycling of the HEU into new isotope production targets. Once removed from the filters, the HEU will remain dissolved in a solution.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: December 21, 1998.

For the Department of Energy.

Cherie P. Fitzgerald,

Director, International Policy and Analysis Division, Office of Arms Control and Nonproliferation.
