Transcontinental Gas Pipe Line Corporation; Notice of Application

December 23, 1998.

Take notice that on December 11, 1998, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251-1396, filed in Docket No. CP99-112-000, an application pursuant to Section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon an existing individually certificated transportation agreement between Transco and Florida Gas Transmission Corporation (FGT) under Transco's Rate Schedule X-245, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that the Commission issued an order dated September 9, 1998, in Docket No. CP98-241-000, authorizing the abandonment of FGT's Rate Schedule X-21. According to Transco, Rate Schedule X-245 is the corresponding rate schedule to FGT's Rate Schedule X-21 and is no longer required. Further, Transco contends that gas has not flowed under this agreement since 1991.

Pursuant to a transportation agreement dated February 1, 1982, Transco transported natural gas on an interruptible basis on behalf of FGT up to the dekatherm equivalent of 300 Mcf per day. The transportation agreement provided for a primary term of July 13, 1996 and year to year thereafter until terminated by either party with six months written notice. The Commission authorized Transco's Rate Schedule X-

245 in an order issued November 19, 1982, in Docket No. CP82-226. Under Rate Schedule X-245, Transco transported the quantities of gas from the inlet flange connecting the Energy Minerals 8-7 Well in the Black Creek Field, Stone County, Mississippi, and redelivered an equivalent quantity of gas to FGT at the interconnection between FGT's existing facilities in Stone County, Mississippi.

Transco states that the proposed abandonment will not impact either the certificate holder's peak day or its annual deliveries. Additionally, Transco's tariff does not prohibit the proposed elimination of Rate Schedule X-245. Transco does not propose to abandon any facilities nor will any service to any of its other customers be affected by the abandonment authorization requested in the instant application.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 13, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the Protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Transco to appear or be represented at the hearing.

Williams states that on December 1, 1998, as revised December 11, 1998, it made a filing to recover through an alternate mechanism any GSR costs not recovered through the mechanism set forth in Article 14.2 of its tariff. Williams states that a copy of its filing was served on all participants listed on the service list maintained by the Commission in the docket referenced above and on all of Williams'

jurisdictional customers and interested state commissions.
