SUMMARY: The Commission hereby gives notice that it has instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the antidumping duty order on cellular mobile telephones and subassemblies from Japan would be likely to lead to continuation or recurrence of material injury. Pursuant to section 751(c)(2) of the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission; the deadline for responses is February 23, 1999. Comments on the adequacy of responses may be filed with the Commission by March 19, 1999.

EFFECTIVE DATE: January 4, 1999.

SUPPLEMENTARY INFORMATION:

Background.—On December 19, 1985, the Department of Commerce issued an antidumping duty order on imports of cellular mobile telephones and subassemblies from Japan (50 F.R. 51724). The Commission is conducting a review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is Japan.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determination, the Commission defined eight Domestic Like Products. The Commission determined that domestically produced transportable cellular mobile telephones and vehicular cellular mobile telephones are a single like product. The Commission also determined that the subassemblies dedicated to the performance of each of the following seven essential functions of a complete cellular mobile telephone are separate like products: audio processing, signal processing (logic), frequency transmitting, frequency receiving, frequency comparing (synthesizing), duplexing (enabling sending and receiving at the same time), and power amplifying. Certain Commissioners defined the Domestic Like Product differently in the original

determination. In response to the October 31, 1988, order of the United States Court of International Trade remanding the investigation, the Commission found one Domestic Like Product consisting of complete cellular mobile telephones and subassemblies thereof. Certain Commissioners defined the Domestic Like Product differently in the remand determination. For purposes of this notice, there is one Domestic Like Product, complete cellular mobile telephones and subassemblies thereof.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission defined eight Domestic Industries: one Domestic Industry consisting of firms that manufacture complete cellular mobile telephones or transceivers or control units and the other seven domestic industries consisting of producers of the specified subassemblies for cellular mobile telephones. Certain Commissioners defined the Domestic Industry differently in the original determination. In response to the October 31, 1988, order of the United States Court of International Trade remanding the investigation, the Commission found one Domestic Industry consisting of producers of complete cellular mobile telephones and subassemblies thereof. Certain Commissioners defined the Domestic Industry differently in the remand determination. For purposes of this notice, there is one Domestic Industry, producers of complete cellular mobile telephones and subassemblies thereof.

(5) The Order Date is the date that the antidumping duty order under review became effective. In this review, the Order Date is December 19, 1985.

(6) An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will

maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. § 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 23, 1999. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is March 19, 1999. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules,

each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.
