Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Proposed Project: Evaluation of Treatment Improvement Protocol (TIP) No. 24—New—Since 1992, the Center for Substance Abuse Treatment (CSAT) has published Treatment Improvement Protocols (TIPs), which provide administrative and clinical practice guidance to the substance abuse treatment field. Up to six special studies will be conducted to evaluate the impact of TIPs. The first of these will evaluate the dissemination and impact of TIP No. 24—Guide to Substance Abuse Services for Primary Care Clinicians—on the clinical practices of primary care physicians and related health professionals. The information contained in the document has been published in three alternative lengths and formats: the complete TIP, a Concise Desk Reference, and a Pocket Reference Guide.

This study will examine the likely usefulness for primary care clinicians of the content of TIP No. 24, published in 1998, and will compare the utility of the three alternative lengths and formats for presenting the information. All three versions of the TIP No. 24 material will be mailed to the leadership of 24 professional health organizations representing primary health care professionals throughout the Nation; a sample of the leadership will then be surveyed and asked to assess the content of the materials and the utility of each of the three versions.

The study will use a one-group posttest-only design. Primary objectives of the study are to determine: (1) the
