DEPARTMENT OF ENERGY

Notice of Floodplain Involvement for the Transfer of the South Property at the Miamisburg Environmental Management Project

AGENCY: Ohio Field Office, Miamisburg Environmental Management Project (MEMP), Department of Energy (DOE).

ACTION: Notice of Floodplain Involvement.

SUMMARY: This is to give notice of DOE's proposal to transfer ownership of approximately 123 acres of undeveloped property in the southern portion of the MEMP site, located approximately 10 (ten) miles southwest of Dayton, Ohio. The property, designated the South Property, has been determined to be excess to DOE's long-term needs. As a result, ownership of this property will be transferred to a non-Federal entity. A small portion of the South Property lies within the 100-year floodplain, i.e., the area is subject to a 1% chance per year of inundation from the Great Miami River. In accordance with 10 CFR 1022.5(d), DOE will identify those uses that are restricted under Federal, state, and local floodplain regulations. The future owner of the South Property will be made aware of the applicable governing regulations on or adjacent to the 100-year floodplain.

DATES: Written comments must be received by the DOE at the following address on or before January 27, 1999.

ADDRESSES: For further information on this proposed action, including a site map and/or copy of the Floodplain Assessment, contact: Ms. Sue Smiley, NEPA Compliance Officer, U. S. Department of Energy, Ohio Field Office, P. O. Box 66, Miamisburg, OH 45343-0066; Phone: 937-865-3984; Facsimile: 937-865-4489.

FOR FURTHER INFORMATION CONTACT: For further information on general DOE floodplain and wetland environmental review requirements, contact: Ms. Carol Borgstrom, Director, Office of NEPA Policy and Assistance, EH-42, U. S. Department of Energy, 1000 Independence Avenue, SW,

Washington, D.C. 20585; Phone: 202-586-4600 or 1-800-472-2756.

SUPPLEMENTARY INFORMATION: The proposed activity would support ultimate disposition of the MEMP site. The MEMP site has been determined to be excess to DOE's long-term needs. This decision is supported by the *Nonnuclear Consolidation Environmental Assessment* (DOE/EA-0792) and associated Finding of No Significant Impact (FONSI) dated September 14, 1993, and the Memorandum of Understanding (MOU) between the DOE Defense Programs, Environmental Management and Nuclear Energy Programs, dated August 1, 1995. In order to meet the programmatic need to disposition land determined to be excess to DOE's needs, ownership of the site will be transferred to a non-Federal entity. The property will be released in phases, as certain parcels of land are still in use or are not yet suitable for transfer. This notice addresses that portion of the South Property which lies within the 100-year floodplain. The proposed sale of the South Property, as a whole, will be evaluated under the National Environmental Policy Act (NEPA) process. The NEPA document, which will include the Floodplain Assessment, will be made available to Interested or Affected States and Tribes, as well as other key stakeholders/members of the public. Transfer of the South Property will not occur until the NEPA process has been completed.

Issued in Miamisburg, Ohio on December 30, 1998.
