Once CDC is assured, through the monitoring of shipments (normally no more than 2), that the provisions of a special permit plan are being followed by a new permit holder, and that the use of adequate

disease control practices is being demonstrated, the special permit is extended to cover the receipt of additional shipments under the same plan for a period of 180 days, and may be renewed upon request. This eliminates the burden on importers to repeatedly report identical information, requiring only that specific shipment

itineraries and information on changes to the plan which require approval be submitted.

The respondents are commercial or not-for-profit importers of nonhuman primates. We are requesting clearance for 3 years. Total annual burden hours are 14.
