[Docket No. CP99-141-000]

Tennessee Gas Pipeline Company; Notice of Application

January 14, 1999.

Take notice that on January 7, 1999, Tennessee Gas Pipeline Company (Tennessee), filed in Docket No. CP99-

141-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon service to New Jersey Natural Gas Company (NJNG) under Rate Schedule T-143, all as more fully set forth in the application on file with the Commission and open to public inspection.

Tennessee states that NJNG has recently requested that it be allowed to convert its Part 157 transportation service to open-access service under Part 284 of the Regulations. Tennessee states that this conversion, to which Tennessee has agreed, would be accomplished by the cancellation of the existing Rate Schedule T-143 contract and the effectuation of a new contract pursuant to Tennessee's Rate Schedule FT-A. Tennessee states that NJNG has agreed to a rate structure under the new contract that is acceptable to Tennessee and that will be in effect through the primary term of the original contract, which will expire on the same date Rate Schedule T-143 would have expired. Tennessee states that to effectuate this conversion, Tennessee herein seeks authority to abandon service under Rate Schedule T-143 effective February 15, 1999.

Tennessee states that the transportation quantity under the conversion contract shall be 10,894 dekatherms as opposed to the 11,092 dekatherms currently provided under the Rate Schedule T-143 contract. Tennessee also states that while the stated transportation quantity under the proposed conversion contract is lower than the stated transportation quantity in the Rate Schedule T-143 contract, the decrease simply replicates the service under the Rate Schedule T-143 contract by providing for a delivered transportation quantity which is net of fuel as opposed to a received transportation quantity which is inclusive of fuel, and thus, Tennessee's service to NJNG is not being reduced.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 4, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing
