

31001); 31 U.S.C. Chapter 37, Subchapter I (General) and Subchapter II (Claims of the United States Government), 31 U.S.C. 3711 Collection and Compromise, 31 U.S.C. 3716 Administrative Offset, 5 U.S.C. 5514 Installment Deduction for Indebtedness (Salary Offset); 10 U.S.C. 135, Under Secretary of Defense (Comptroller) Section 101(l) of Executive Order 12731; 4 CFR 101.1-105.3, Federal Claims Collection Standards; 5 CFR 550.1101 550.1108 Collection by Offset from Indebted Government Employees (OPM) and 31 CFR Part 5, Subparts B and D (Department of Treasury).

D. *Records to be matched:* The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, from which records will be disclosed for the purpose of this computer match are as follows:

1. The Bureau of Public Debt will use personal data from the following record systems for the match:

A. Treasury/BPD.001, entitled 'Human Resources and Administrative Records,' last published in the Federal Register at 63 FR 69936, December 17, 1998.

B. Treasury/BPD.002, entitled 'United States Savings Type Securities,' last published in the Federal Register at 63 FR 69938, December 17, 1998.

C. Treasury/BPD.003, entitled 'United States Securities (Other than Savings Type Securities),' last published in the Federal Register at 63 FR 69940, December 17, 1998.

D. Treasury/DO.002, entitled 'Treasury Integrated Management Information System (TIMIS),' last published in the Federal Register at 63 FR 69719, December 17, 1998.

E. Treasury/DO.210, entitled 'Treasury Integrated Financial Management and Revenue System,' last published in the Federal Register at 63 FR 69741, December 17, 1998.

F. Treasury/DO.211, entitled 'Telephone Call Detail Records,' last published in the Federal Register at 63 FR 69743, December 17, 1998.

2. DOD will use personal data from the record system identified as S322.11 DMDC, entitled 'Federal Creditor Agency Debt Collection Database,' last published in the Federal Register at 61 FR 32779, June 25, 1996.

E. *Description of computer matching program:* The Bureau of Public Debt, as the source agency, will provide DMDC with an electronic file which contains the names of delinquent debtors in programs the Bureau administers. Upon receipt of the electronic file of debtor accounts, DMDC will perform a computer match using all nine digits of

the SSN of the Bureau's file against a DMDC computer database. The DMDC database, established under an interagency agreement between DOD, OPM, OMB and the Treasury Department, consists of employment records of non-postal Federal employees and military members, active and retired. The 'hits' or matches will be furnished to the Bureau. The Bureau is responsible for verifying and determining that the data on the DMDC reply tape file are consistent with the Bureau's source file and for resolving any discrepancies or inconsistencies on an individual basis. The Bureau will also be responsible for making final determinations as to positive identification, amount of indebtedness and recovery efforts as a result of the match.

The electronic file provided by the Bureau of Public Debt will contain data elements of the debtor's name, SSN, internal account numbers and the total amount owed for each debtor on approximately 2000 delinquent debtors. The electronic file provided by DMDC will contain an individual's name, SSN, military service or employing agency and current work or home address.

The DMDC computer database file contains approximately 4.8 million records of active duty and retired military members, including Reserve and Guard, and approximately 3.5 million records of active and retired non-postal Federal civilian employees.

F. *Inclusive dates of the matching program:* This computer matching program is subject to review by the Office of Management and Budget and Congress. If the mandatory 30 day period for public comment has expired and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange of data at a mutually agreeable time on an annual basis. By agreement between the Department of the Treasury and DoD, the matching program will be in effect and continue for 18 months with an option to extend for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

H. *Address for receipt of public comments or inquiries:* Director, Defense Privacy Office, 1941 Jefferson Davis Highway, Suite 920, Arlington,

VA 22202-4502. Telephone (703) 607-2943.

## DEPARTMENT OF DEFENSE

### Department of the Army

#### Intent To Prepare a Draft Environmental Impact Statement (DEIS) for Waukegan Harbor, Lake County, Illinois as Part of the Comprehensive Dredging Management Plan (CDMP)

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers, Chicago District maintains Waukegan Harbor, a Federally authorized, commercial deep-draft navigation project on Lake Michigan. Maintenance dredging has not been performed on inner portions of the harbor since 1971, due to elevated levels of contaminants in the sediment, particularly polychlorinated biphenyls (PCBs) and lack of an acceptable disposal site for confinement of these sediments. Sediment in the outermost portion of the Federal Channel beyond the breakwater, is clean, does not require confined disposal and has been dredged routinely since completion of the harbor.

The Chicago District has been working closely with the Illinois Environmental Protection Agency (IEPA), the U.S. Environmental Protection Agency (USEPA), The Waukegan Port District, and the Waukegan Citizen's Advisory Group (CAG) to develop a Comprehensive Dredging Management Plan for Waukegan Harbor. The plan has three primary objectives: (1) re-establish a regular maintenance dredging program for the inner harbor area; (2) deepen the navigation channels to accommodate more economical, deeper draft vessels; and (3) clean-up all contaminated unconsolidated sediment within the harbor. Approximately 550,000 cubic yards of sediments need to be removed from the harbor to meet these objectives. The EIS will evaluate sediment removal, transport, and disposal and management alternatives developed as part of the Waukegan Harbor CDMP.

FOR FURTHER INFORMATION CONTACT: Dr. Phil Moy, EIS Coordinator (312) 353-6400 extension 2021 or Ms. Joan Albert, Project Manager, (312) 353-6400 extension 2004; U.S. Army Corps of Engineers, Chicago District; 111 North

Canal Street; Chicago, Illinois 60606-7206.

**SUPPLEMENTARY INFORMATION:**

**1. Background**

Prior to 1969, sediment dredged from the Federal Channel was placed at an open-lake location. The discovery of elevated levels of contaminants has prohibited maintenance dredging and authorized expansion and deepening of the Federal Channel. Due to the lack of maintenance dredging, channel depth in some parts of the harbor has been reduced by as much as ten feet.

Due to the presence of PCBs in the sediment, Waukegan Harbor was designated as one of the Great Lake's Areas of Concern in 1981. State are required to prepare a Remedial Action Plan (RAP) for Great Lakes Areas of Concerns. The Waukegan Citizen's Advisory Group has been actively involved in the RAP process with the IEPA.

The PCB contamination originated in discharges primarily attributed to the Outboard Marine Corporation (OMC). Under the Federal Superfund authority, the USEPA and OMC developed a plan to cleanup the most severely PCB-contaminated sediment (>50 parts per million (ppm)); the cleanup was complete in 1993. Prior to completion of the cleanup, the maximum PCB concentration in the Federal Channel was 33.5 ppm. Today the maximum concentration of PCBs in the Federal Channel is 10.9, with an average of about 3.4 ppm.

**2. Alternatives**

The EIS will consider the potential impacts of alternatives for dredging and disposal of contaminated sediment removed from the inner areas of the harbor. These will include various means of dredging and sediment transport to the proposed disposal sites. Alternatives for deepening and ongoing maintenance of the Federal Channel will also be evaluated. The EIS will evaluate management alternatives for clean sediment dredged from the approach channel.

Current laws and environmental policies require that contaminated dredged material be confined or receive special treatment. Contaminated sediment can be placed at an approved commercial landfill or in a confined disposal facility (CDF) constructed for the harbor. Over 15 potential CDF sites for the Waukegan Harbor sediment were evaluated in a 1984 Study. Though several of the sites met the economic, technical, and environmental standards,

lack of a nonFederal project sponsor or public support prevented the plan from moving forward to approval and implementation.

One of the original sites, a 17-acre, in-lake location south of Waukegan Harbor remains under consideration. Through cooperative efforts of the Waukegan CAG, and Federal and State agencies, a new upland site has been identified for consideration: an existing 33-acre industrial lagoon on the Johns-Manville property two miles north of the harbor.

It is anticipated that once the sediment cleanup is complete, new sediment that accumulates in the harbor would not require confined disposal. Therefore, any CDF constructed for the harbor cleanup would be capped and closed upon completion of the project.

**3. Scoping Process**

As part of the EIS process, a public scoping meeting will be held early in 1999. Public participation is an important part of the environmental analysis by providing assistance in determining the scope of issues to be addressed and identifying the significant issues of the proposed actions. Federal, State, and local resources agencies, Native American groups and concerned interest groups/ individuals are encouraged to participate in this process. Time and location of the scoping meeting will be widely publicized through fliers, announcements and news releases. Those wishing to provide information or data they feel should be included or considered in the Environmental Impact Statement should furnish the information by writing to the points of contact indicated above or by attending the scoping meeting.

**DEPARTMENT OF ENERGY**

**Golden Field Office; Hydrogen Technology Innovation**

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Golden Field Office, DOE.

**ACTION:** Notice of Supplemental Announcement (07) to the Broad Based Solicitation for Submission of Financial Assistance Applications Involving Research, Development, and Demonstration for Renewable Energy

and Energy Efficiency Technologies, DE-PS36-99GO10383.

**SUMMARY:** The Hydrogen Program of the Department of Energy's (DOE) Office of Energy Efficiency and Renewable Energy (EERE) is issuing a Supplemental Announcement to EERE's Broad Based Solicitation for Submission of Financial Assistance Applications Involving Research, Development and Demonstration, DE-PS36-99GO10383, dated November 9, 1998. Under this Supplemental Announcement, DOE is seeking Phase I research and development (R&D) proposals that can advance hydrogen production, storage, and utilization technologies. The objective of Phase I is to develop detailed R&D plans to validate the proposed hydrogen concept, along with necessary preliminary R&D and the development of other supporting documentation.

Awards under this Supplemental Announcement will be Cooperative Agreements for Phase I research with a term of up to 12 months. Subject to funding availability, the total DOE funding available under this Supplemental Announcement will be \$650,000, with individual awards not to exceed \$150,000 of DOE funding.

All information regarding the Supplemental Announcement will be posted on the DOE Golden Field Office Home page at the address identified below.

**DATES:** DOE expects to issue the Supplemental Announcement on January 19, 1999. The closing date of the Supplemental Announcement is February 25, 1999.

**ADDRESSES:** The Supplemental Announcement will be posted on the DOE Golden Field Office Home Page at <http://www.eren.doe.gov/golden/solicit.htm>. It is DOE's intention not to issue hard copies of the Supplemental Announcement.

**FOR FURTHER INFORMATION CONTACT:** John Motz, Contract Specialist, at 303-275-4737, e-mail [john\\_motz@nrel.gov](mailto:john_motz@nrel.gov), or Doug Hooker, Project Officer, at 303-275-4780, e-mail [doug\\_hooker@nrel.gov](mailto:doug_hooker@nrel.gov).

Issued in Golden, Colorado, on January 19, 1999.

Dated: January 14, 1999.

**Ruth E. Adams,**

*Contracting Officer, Golden Field Office.*
