

Specifically, Physical Electronics Inc., Eden Prairie, MN; Synopsis, Inc., Mountain View, CA; and ULTRATECH Stepper, San Jose, CA have been added as parties to this venture. Also, SiBond L.L.C., Hopewell Junction, NY; and Solid State Measurements, Inc., Pittsburgh, PA have been dropped as parties to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Semiconductor Research Corporation ("SRC") intends to file additional written notification disclosing all changes in membership.

On January 7, 1985, Semiconductor Research Corporation ("SRC") filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on January 30, 1985 (50 FR 4281).

The last notification was filed with the Department on March 12, 1998. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on September 29, 1998 (63 FR 51957).

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Silicon Integration Initiative, Inc.

Notice is hereby given that, on March 6, 1998, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Silicon Integration Initiative, Inc. ("SI2") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, QuestLink Technology, Inc., Austin, TX; Philips Semiconductors International B.V., Eindhoven, The Netherlands; and Aspect Development, Inc., Mountain View, CA have been added as parties to this venture. Also, Engineering DataXpress, San Jose, CA; CADIS, Inc., Boulder, CO; and Viewlogic Systems,

Inc., Marlboro, MA have been dropped as parties to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Silicon Integration Initiative, Inc. intends to file additional written notifications disclosing all changes in membership.

On December 30, 1998, Silicon Integration Initiative, Inc. filed its original notification pursuant to section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to section 6(b) of the Act on March 13, 1989 (54 FR 10456).

The last notification was filed with the Department on September 5, 1997. A notice was published in the **Federal Register** pursuant to section 6(b) of the Act on November 10, 1997 (62 FR 60532).

Notice Pursuant To The National Cooperative Research and Production Act of 1993—Supercomputer Automotive Applications Partnership

Notice is hereby given that, on October 6, 1998, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Supercomputer Automotive Applications Partnership has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in the nature and objectives of the venture. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the parties have agreed to add the following as an additional research objective for the group: to develop vehicle component models and first generation analytical tools, and then use those tools to (1) perform first order trade-off studies to rank major components and (2) conduct computer simulations to evaluate various vehicle configurations. These analytical tools are needed to plan for the most efficient deployment of resources to reach the goals of the Partnership for a New Generation of Vehicle, the USCAR program designed to improve vehicle

technology and vehicle manufacturing processes, as well as develop a prototype next generation vehicle. The tolls will also be useful in program management and vehicle integration as the PNGV program moves forward. If successful, PNGV will develop commercially-viable vehicle technology that, over the long-term, can preserve personal mobility while further reducing the impact of cars and light trucks on the environment and reducing the nation's dependence on imported petroleum.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Supercomputer Automotive Applications Partnership intends to file additional written notification disclosing all changes in membership.

On July 6, 1993, Supercomputer Automotive Applications Partnership filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on May 27, 1994 (59 FR 27580).
