This notice also lists the following information:

Title of Proposal: Interim Assessment of the HOPE VI Program: Survey Development, Data Collection and Case Studies.

Description of the need for the information and proposed use: The HOPE VI program, formerly known as the Urban Revitalization Demonstration Program, was created for the purpose of comprehensively addressing the need of severely distressed or obsolete public housing developments and the residents of those developments. Since 1993, Congress has appropriated nearly \$3 billion for the HOPE VI program.

In 1994, HUD initiated a ten-year evaluation of the HOPE VI program in order to identify its impact on public housing developments, public housing residents, and the neighborhoods surrounding targeted developments. Under contract to HUD, Abt Associates Inc. undertook the first phase of this study, the Historical and Baseline Assessment of the HOPE VI Program, between 1994 and 1996. The study was designed to collect data on conditions and characteristics prior to revitalization at 15 of the 25 HOPE VI sites that received awards over the first two program years. As part of the Baseline Assessment, a survey of residents who were living in the developments prior to revitalization was undertaken. The survey captured information about the characteristics of those residents, as well as their attitudes

toward their housing, experiences with crime, safety concerns, and use of supportive services.

The data collection effort that is now proposed is for an interim evaluation that will build on the original study by comparing conditions before and after revitalization and examining the impacts of the program to date at the original 15 study sites. At each site, Abt Associates will conduct in-person surveys with 150 randomly selected residents who have recently moved to the revitalized HOPE VI developments, as well as 150 randomly selected individuals who reside in the surrounding neighborhood. The proposed survey will collect information on the attitudes of HOPE VI residents toward their new homes and the development. Both HOPE VI residents and residents from the surrounding neighborhood will be surveyed regarding neighborhood satisfaction (including perceptions of crime, adequacy of public services and other facilities, community involvement, and level of social cohesion), potential changes in the neighborhood since the HOPE VI redevelopment started, and the use of supportive services provided through the program.

The large-scale investment in public housing through this program and its unique programmatic elements necessitate the continuation of the study of HOPE VI to determine the program's effects. The results will provide valuable lessons for policy makers, developers, researchers, and those directly involved in public housing management and administration concerning the impact of these comprehensive efforts on public housing residents, their neighborhoods, and the larger communities of their cities.

Members of affected public: At each of 15 HOPE VI developments, the survey will involve a random sample of 150 households living in the development shortly after it is reoccupied and 150 households in the neighborhood that immediately surrounds the development. One individual, aged 18 years or older, will be interviewed in each household.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response.

The survey will involve 4,500 respondents, half of whom will be living in HOPE VI developments and half of whom will be residents in the neighborhoods surrounding the developments. Information will be

collected by a one time personal interview that will take approximately 15 minutes to complete. A total of 1,125 hours of respondents' time (15 minutes times 4,500 respondents divided by 60 minutes) will be consumed by the survey process.

Status of the proposed information collection: New.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: January 22, 1999.

Lawrence L. Thompson,
General Deputy Assistant Secretary for Policy Development and Research.
