

margins calculated by the Associations, we note that the SAA at 890-891 provides that, only in the most extraordinary circumstances, will the Department rely on dumping margins other than those it calculated and published in its prior determinations. The *Sunset Regulations* at 19 CFR 351.218(e)(2)(i) explain that "extraordinary circumstances" may be considered by the Department in the context of a full sunset review, where the substantive responses from both domestic and respondent interested parties are adequate. In these cases, however, the Department determined to conduct expedited sunset reviews because the respondents did not submit any substantive responses to the notice of initiation. Thus, in light of the inadequate responses, the Department will not consider whether, in these sunset reviews, it should rely on margins other than the rates from the original investigations.

Therefore, consistent with the *Sunset Policy Bulletin*, we determine that the original margins calculated by Treasury are probative of the behavior of the French, Belgian and German producers and exporters of sugar if the findings were revoked. We will report to the Commission the country-wide margins contained in the *Final Results of Review* section of this notice.

**Final Results of Review**

As a result of these reviews, the Department finds that revocation of the antidumping findings would be likely to lead to continuation or recurrence of dumping at the levels indicated below:

Manufacturers/exporters	Margin (percent)
All French Manufacturers/Exporters .....	102
All Belgian Manufacturers/Exporters .....	103
All German Manufacturers/Exporters .....	121

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: January 29, 1999.

**Richard W. Moreland,**

*Acting Assistant Secretary for Import Administration.*

BILLING CODE 3510-DS-P

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

[I.D. 012099A]

**Endangered Species; Permits**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of applications for modifications to scientific research permits (1115, 1116, 1119); Issuance of amendments to incidental take permits (899, 901, 902, 903).

**SUMMARY:** Notice is hereby given of the following actions regarding permits for takes of endangered and threatened species for the purposes of scientific research and/or enhancement: NMFS has received applications for modifications to existing permits from: Public Utility District No. 1 of Chelan County, Wenatchee, WA (PUD-CC)(1115), Public Utility District No. 1 of Douglas County, East Wenatchee, WA (PUD-DC)(1116), and U.S. Fish and Wildlife Service, Leavenworth, WA (FWS)(1119); and NMFS has issued amendments to incidental take permits to: Oregon Department of Fish and Wildlife at Portland, OR (ODFW)(899), Washington Department of Fish and Wildlife at Olympia, WA (WDFW) (901, 902), and Idaho Department of Fish and Game at Boise, ID (IDFG)(903).

**DATES:** Written comments or requests for a public hearing on any of the applications must be received on or before March 8, 1999.

**ADDRESSES:** The applications and related documents are available for review in the following offices, by appointment:

Protected Resources Division, F/NWO3, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

Office of Protected Resources, Endangered Species Division, F/PR3, 1315 East-West Highway, Silver Spring, MD 20910 (301-713-1401).

**FOR FURTHER INFORMATION CONTACT:** For permits 899, 901, 902, and 903: Robert Koch, Portland, OR (503-230-5424).

For permits 1115, 1116, and 1119: Tom Lichatowich, Portland, OR (503-230-5438)

**SUPPLEMENTARY INFORMATION:**

**Authority**

Issuance of permits and permit modifications, as required by the ESA, is based on a finding that such permits/modifications: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Permits and modifications are issued in accordance with and are subject to parts 217-222 of Title 50 CFR, the NMFS regulations governing listed species permits.

**Species Covered in this Notice**

The following species and populations are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): Upper Columbia River (UCR) spring, Snake River (SnR) spring/summer, SnR fall.

Steelhead trout (*Oncorhynchus mykiss*): UCR

To date, a listing determination for UCR spring chinook salmon under the ESA has not been promulgated by NMFS. This notice of receipt of applications requesting takes of this species is issued as a precaution in the event that NMFS issues a listing determination. The initiation of a 30-day public comment period on the applications, including their proposed takes of UCR spring chinook salmon, does not presuppose a listing determination.

**Modification Requests Received**

PUD-CC requests modification 2 to permit 1115. Permit 1115 authorizes PUD CC to take adult and juvenile, endangered, naturally produced and artificially propagated, UCR steelhead associated with fish passage studies in the UCR Basin. For Modification 2, PUD-CC requests takes of adult and juvenile UCR spring chinook salmon in anticipation of a possible listing decision of this species by NMFS. PUD-CC also requests authorization for takes of ESA-listed juvenile salmonids associated with three new proposed studies, Studies 4, 5 and 6. In Study 4, PUD CC proposes to use new acoustic tagging technology to monitor the behavior of juvenile salmonids as they migrate through passage facilities at Rocky Reach Dam. Juvenile salmonids are proposed to be anesthetized, tagged, allowed to recover, released above the dam and tracked downstream. In Study 5, PUD CC proposes to use passive integrated transponders (PIT) and radio tagging technology to study the survival of juvenile, endangered, artificially

propagated, UCR steelhead at Rocky Reach and Rock Island Dams. ESA-listed juvenile steelhead are proposed to be anesthetized, tagged, allowed to recover, released above the dams and tracked downstream. Results from Study 4 and 5 will be used to improve the operation of fish passage facilities and evaluate the relative benefits of PIT and radio tagging technologies. For Study 6, PUD CC proposes to: (1) determine the types and numbers of adult salmonids that may be present in the Lake Chelan bypass reach after spill at the Lake Chelan hydroelectric project is curtailed, and (2) identify a mitigation strategy to protect anadromous and resident fish that may become stranded in the bypass reach after spill is curtailed. Adult salmonids are proposed to be observed during snorkel surveys. If any adult salmonids are observed in the bypass reach, the fish are proposed to be captured, handled to obtain scientific information, and released. An associated increase in ESA-listed juvenile fish indirect mortalities are also requested. Modification 2 is requested to be valid for the duration of the permit. Permit 1115 expires on December 31, 2002.

PUD-DC requests modification 2 to scientific research permit 1116. Permit 1116 authorizes PUD-DC to take adult and juvenile, endangered, naturally produced and artificially propagated, UCR steelhead associated with fish passage studies. For modification 2, PUD DC requests authorization for takes of ESA-listed juvenile steelhead associated with two new research studies, Studies 4 and 5. In Study 4, PUD DC proposes to use PIT tag technology to assess the survival of juvenile, endangered, artificially propagated, UCR steelhead as they pass through Wells Dam. In Study 5, PUD DC proposes to study the survival of juvenile, endangered, artificially propagated, UCR steelhead at Wells Dam and evaluate the relative benefits of PIT and radio tag technology. ESA-listed juvenile steelhead are proposed to be anesthetized, tagged, allowed to recover, released above the dam and tracked electronically. Results from Studies 4 and 5 will be used to improve the operation of fish passage facilities and evaluate fish tagging technology. An associated increase in ESA-listed juvenile fish indirect mortalities are also requested. Modification 2 is requested to be valid for the duration of the permit. Permit 1116 expires on December 31, 2002.

FWS requests modification 1 to permit 1119. Permit 1119 authorizes takes of adult and juvenile, endangered, naturally produced and artificially

propagated, UCR steelhead associated with scientific research studies. For modification 1, FWS requests takes of adult and juvenile UCR spring chinook salmon in anticipation of a possible listing decision of this species by NMFS. Also for modification 1, FWS requests authorization for takes of ESA-listed adult and juvenile salmonids associated with a new study designed to evaluate the feasibility of restoring endangered UCR steelhead and UCR spring chinook salmon above barriers in Icicle Creek, a tributary to the Wenatchee River. FWS proposes to capture adult, endangered, UCR steelhead and UCR spring chinook with drift nets, hook and line, or by collecting them in a fish ladder. The fish are proposed to be anesthetized, tagged with radio transmitters, allowed to recover, placed above the barriers and tracked electronically. Snorkel observations of adult and juvenile salmonids in Icicle Creek are also proposed. If successfully introduced above the barriers, endangered UCR steelhead and UCR spring chinook salmon will benefit by having access to a well managed wilderness watershed having suitable fish rearing habitat. Modification 2 is requested to be valid for the duration of the permit. Permit 1119 expires on December 31, 2002.

#### Amendments Issued

On December 30, 1998, NMFS issued amendments to ODFW's incidental take permit 899, to WDFW's incidental take permits 901 and 902, and to IDFG's incidental take permit 903. The amendments provide an extension of the duration of the permits through December 31, 1999. The permits were due to expire on December 31, 1998. The permits authorize incidental takes of endangered SnR sockeye salmon and threatened SnR spring/summer and fall chinook salmon associated with the operation of non-listed fish hatchery programs, educational projects, and volunteer salmon enhancement projects within the Columbia River Basin. Extension of the permits will allow ODFW, WDFW, and IDFG to continue hatchery operations in 1999 while NMFS prepares a new biological opinion.

Dated: January 29, 1999.

## COMMISSION OF FINE ARTS

### Notice of Meeting

The next meeting of the Commission of Fine Arts is scheduled for 18 February 1999 at 10:00 AM in the Commission's offices at the National Building Museum (Pension Building), Suite 312, Judiciary Square, 441 F Street, N.W., Washington, D.C., 20001. Items of discussion will include designs for projects affecting the appearance of Washington, D.C., including buildings and parks.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address or call 202-504-2200. Individuals requiring sign language interpretation for the hearing impaired should contact the Secretary at least 10 days before the meeting date.

Dated in Washington, D.C., January 28, 1999.

#### Charles H. Atherton,

*Secretary.*

## DEPARTMENT OF DEFENSE

### Defense Logistics Agency

#### Privacy Act of 1974; Computer Matching Program

**AGENCY:** Defense Manpower Data Center, Defense Logistics Agency, DoD.  
**ACTION:** Notice of a computer matching program.

**SUMMARY:** Subsection (e)(12) of the Privacy Act of 1974, as amended (5 U.S.C. 552a), requires agencies to publish advanced notice of any proposed or revised computer matching program by the matching agency for public comment. The Department of Defense (DoD) as the matching agency under the Privacy Act, is hereby giving notice to the record subjects of a computer matching program between Social Security Administration (SSA) and the DoD that their records are being matched by computer.

The Social Security Act requires SSA to verify, with independent or collateral sources, information provided to SSA by applicants for and recipients of Supplemental Security Income (SSI) payments. The SSI applicant or recipient provides information about eligibility factors and other relevant information. SSA obtains additional information as necessary before making
