

unable to acquire the land rights at this location, Transco will install the facilities at an alternate site, at or near milepost 1159.03 on its mainline in Anderson. It is explained that Transco will use the facilities to transport natural gas for CSC under its Rate Schedules FT, FT-R or IT, delivering up to 2,400 dt equivalent to CSC on a capacity release, secondary firm or interruptible basis. It is asserted that CSC would use the gas as fuel for its manufacturing plant.

It is estimated that the cost of the facilities would be approximately \$263,000, and it is stated that Transco would be reimbursed by CSC for all construction costs. It is stated that Transco's tariff does not prohibit the addition of new delivery points. It is asserted that the proposed deliveries will have no significant impact on Transco's peak day or annual deliveries.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
