

(1968) and the Alaska National Interest Lands and Conservation Act (1980). In December 1983 the Bureau of Land Management completed the initial River Management Plan for the Gulkana River. That report was entitled "Gulkana River. A Component of the National Wild and Scenic Rivers System". In that document the specific boundaries and management policies were established for the Gulkana National Wild River. With increasing use and improved access to the Gulkana River system, the Bureau of Land Management proposes to update the River Management Plan through the use of the Limits of Acceptable Change. Results from the LAC planning process will be utilized by the Bureau of Land Management to determine what level of NEPA compliance and environmental analysis will be required to implement the proposed recommendations.

Publication of this notice was delayed due to transport and delivery problems to the Office of the Federal Register.

Dated: February 8, 1999.

Kathy J. Liska,

*District Outdoor Recreation Planner,
Glennallen Field Office.*

Clarification Regarding the Meeting of Advisory Council on Historic Preservation

SUMMARY: Notice is hereby given, in accordance with Public Laws 92-463 and 94-579, that the Advisory Council on Historic Preservation with assistance from the Bureau of Land Management will hold a fact-finding public hearing to gather comments specifically regarding potential impacts to Native American cultural and archaeological resources within the site of the proposed Imperial Gold Mine Project from 2 p.m. to 5 p.m. and 6:30 p.m. to 9 p.m. on Thursday, March 11, 1999. The hearing will be held in Ballroom A at the Barbara Worth Resort, located at 2050 Country Club Drive in Holtville, California.

The Advisory Council on Historic Preservation was created by the 1966 National Historic Preservation Act to advise the President and the Congress on matters related to historic preservation. In its role with the Glamis/Imperial project, the Council will be

assisting the BLM to fulfill its obligations under the National Preservation Act in understanding the importance of the resources affected by the proposed mining project. The Council will listen to testimony and work with the State Historic Preservation Office, BLM, the tribe, and the company in developing a memorandum of understanding which will establish procedures on how best to protect the resources.

The site for the proposed mining project is eligible for the National Register of Historic Places. Archaeological and cultural inventories indicate the site has scientifically important archeological, cultural, and spiritual value. The hearing will focus on the Native American cultural and archaeological values within the proposed mine site.

All public comments will be recorded, and the transcript will become part of the record. If you are interested in providing comments, please notify Carole Levitzky at (909) 697-5217 or Doran Sanchez at (909) 697-5220, BLM California Desert District Public Affairs.

The proposed Imperial Project, an open pit, heap leach gold mine, would be located in eastern Imperial County, approximately 45 miles northeast of El Centro and 20 miles northwest of Yuma, Arizona. The proposed project area would encompass approximately 1,625 acres of public lands administered by the BLM, of which 1,392 acres would be disturbed. The proposed project would be operated by the Glamis Imperial Corporation, formerly known as Chemgold Corporation.

The Bureau of Land Management and the County of Imperial released a joint draft environmental impact statement/environmental impact report for the proposed project on December 8, 1997. Public comment on the draft ended April 13, 1998.

FOR FURTHER INFORMATION CONTACT: Carole Levitzky at (909) 697-5217 or Doran Sanchez at (909) 697-5220, BLM California Desert District Public Affairs.

Dated: February 24, 1999.

Carole Levitzky,

Assistant District Manager, External Affairs.
