In that instance, the records eventually will be retired to the Federal Records Center and destroyed, in accordance with the applicable Federal Records Retention Schedule (44 U.S.C. 3303a) and any other relevant standards established by SSA and the National Archives and Records Administration.

NOTIFICATION PROCEDURE:

An individual can determine if this system contains a record about him/her by contacting the most convenient Social Security field office and providing his/her name, Social Security number, address, and proper identification. (Furnishing the SSN is voluntary, but it will make searching for an individual's record easier and prevent delay). An individual may also write to the System Manager shown above.

An individual requesting notification of records in person must provide at least one piece of tangible identification such as a driver's license, passport, voter registration card, etc., to verify his/her identity. If an individual does not have identification papers sufficient to establish his/her identity, that individual must certify in writing that he/she is the person they claim to be and that they understand that the knowing and willful request for or acquisition of a record pertaining to an individual under false pretenses is a criminal offense (see 5 U.S.C. 552a(i)(1)(3)). If notification is requested by telephone, an individual must verify his/her identity by providing identifying information which parallels the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If a request for notification is submitted by mail, an individual must include a notarized request to SSA to verify his/her identity or must certify in the request that he/she is the person they claim to be and that they understand that the knowing and willful request for or acquisition of a record pertaining to an individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations 20 CFR 401.45.

RECORD ACCESS PROCEDURES:

These procedures are in accordance with SSA Regulations 20 CFR 401.65.

Data is also reported by individuals and certain other third party sources, such as news media, etc.

Under Section 103 of Title I of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator may submit to the FAA NEMs which meet applicable regulations and which depict noncompatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted NEMs that are found by the FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to Title I of the Act, may submit an NCP for FAA approval that sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

Oakland County International Airport submitted to the FAA on February 24, 1999, the NEMs, descriptions, and other documentation, which were produced during the proposed Oakland County International Airport NCP, dated February 23, 1999. It was requested that the FAA review this material as the NEMs, as described in section 103(a)(1) of the ACT, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as an NCP under section 104(b) of the Act.
