

reflects the estimate of total company-use, lost, and unaccounted-for quantities required during the 12-month period commencing, in an annual filing such as this, on April 1. Pursuant to GTC Section 33.4(b) the over/under recovered component reflects the reconciliation of "actual" company-use, lost, and unaccounted-for quantities with quantities actually retained by Columbia Gulf for the preceding calendar year; i.e., the deferral period.

The deferral period for this annual filing is the preceding calendar year being January 1, 1998 through December 31, 1998. Appendix A sets forth Columbia Gulf's actual experience during the deferral period. As reflected therein, Columbia Gulf was in a net under-recovery positions as of December 31, 1998. Consequently, in this filing Columbia Gulf is implementing an under-recovered surcharge component for each of the retainage factors to increase future quantities to be retained.

Columbia Gulf states that copies of its filing have been mailed to all firm customers, interruptible customers, and affected state commissions.

Destin Pipeline Company, L.L.C.; Notice of Waiver Request

March 3, 1999.

Take notice that on February 26, 1999, Destin Pipeline company, L.L.C. (Destin), P.O. Box 2563, Birmingham, Alabama 35202-2563, filed in Docket No. CP98-238-002 a request pursuant to Section 157.208(g) of the Commission's Regulations for waiver of the prior notice blanket certificate cost limitations associated with its CNG Lateral Project authorized in Docket No. CP98-238-000, all as more fully set forth in the request that is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Specifically, Destin requests, pursuant to Section 157.208(g) of the Commission's Regulations, that the Director of the Office of Pipeline and Producer Regulation (Director) waive the project cost limitations of Sections 157.208(b) and (d) associated with the construction of its CNG Lateral Project authorized in Docket No. CP98-238-000, 83 FERC ¶ 61,308, (1998). Destin states that the costs for the CNG Lateral Project exceeded the 1998 cost limit of \$19.6 million for blanket certificate prior notice projects, and that such waiver request is mandated under the Commission's regulations. Destin states that the costs related to the CNG Lateral Project were originally projected to total \$19.0 million, but that, due to a series of unforeseen and unanticipated events, the actual total cost related to the CNG Lateral Project is \$35.1 million. Destin also states that if the Director believes that a waiver would not be appropriate, it requests that the Commission convert its blanket certificate authorization for the CNG Lateral Project to a case specific Section 7(c) certificate.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 24, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).
