

dating from 1950 to 1973 that pertain to applications for the establishment, revision, or cancellation of exchange programs. More recent records accumulated after the Bureau was transferred to the United States Information Agency were previously approved for disposal.

9. Department of State, Bureau of European Affairs, (N1-59-99-20, 11 items, 8 temporary items). Administrative files relating to the logistics of organizing the 1998 Washington Conference on Holocaust-Era Assets. Included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are the record-keeping copies of files relating to the substantive issues addressed by the Conference.

10. Securities and Exchange Commission, Office of the Inspector General (N1-266-99-1, 7 items, 5 temporary items). Files relating to investigations and audits including correspondence, reports, notes, attachments, drafts, and background papers. Also included are electronic copies of documents created using electronic mail and word processing. Recordkeeping copies of significant investigative files and final audit reports are proposed for permanent retention.

11. Department of Veterans Affairs, Veterans Health Administration (N1-15-98-3, 4 items, 4 temporary items). Means test verification records used to determine individual veterans' fiscal eligibility for health care provided by the VA. Included are paper records and records on optical disk and other electronic media. Records also include computer tapes provided by the Internal Revenue Service and the Social Security Administration.

12. Tennessee Valley Authority, Communications Program (N1-142-99-4, 2 items, 1 temporary item). Electronic copies of documents created using word processing pertaining to Inside TVA, a newspaper for employees that has limited external distribution. Recordkeeping copies of these files are proposed for permanent retention.

Dated: May 12, 1999.

## NUCLEAR REGULATORY COMMISSION

### Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision.
2. The title of the information collection: Proposed Rule, 10 CFR part

52, Appendix C, Design Certification Rule for the AP600 Design.

3. The form number if applicable: Not applicable.

4. How often the collection is required: On occasion.

5. Who will be required or asked to report: Designers of commercial nuclear power plants, electric power utilities, and any person eligible under the Atomic Energy Act to apply for a construction permit for a nuclear power plant.

6. An estimate of the number of responses: No applications are expected during the next three years.

7. The estimated number of annual respondents: No applications are expected during the next three years.

8. An estimate of the total number of hours needed annually to complete the requirement or request: Approximately 24 additional burden hours (8 hours each for 3 additional reports that result from changing the requirement to an annual to quarterly report). No reports are expected during the next three years.

9. An indication of whether section 3507(d), Public Law 104-13 applies: Applicable.

10. Abstract: The proposed rule would add appendix C to 10 CFR part 52 to allow interested parties to reference a certified AP600 design in an application for a construction permit or combined license. In general, the information collection requirements are the same as those contained in 10 CFR part 52. The addition of appendix C to 10 CFR part 52 adds a small incremental reporting burden.

The NRC will use the reported information to monitor changes to the facility and gain an understanding of how the as-built facility conforms to the certified design.

Submit, by June 21, 1999, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC. The proposed rule indicated in "The title of the information collection" is or has been published in the **Federal Register** within several days of the publication
