

on June 8, 1999. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before May 28, 1999, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation. After the scientific presentations, a 15-minute open public session will be conducted for interested persons who have submitted their request to speak by May 28, 1999, to address issues specific to the submission or topic before the committee.

Dated: May 26, 1999.

Michael A. Friedman,

Deputy Commissioner for Operations.

National Institutes of Health

Submission for OMB Review; Comment Request; Evaluation of National Youth Anti-Drug Media Campaign

SUMMARY: Under the provision of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the National Institute on Drug Abuse of the National Institutes of Health submitted to the Office of Management and Budget (OMB) a request to review and approve the information collected listed below. This proposed information collection was previously published in the **Federal Register** on November 30, 1998 on page 65795 and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented after October 1, 1995,

unless it displays a currently valid OMB control number.

PROPOSED COLLECTION: *Title:* Evaluation of National Youth Anti-Drug Media Campaign. *Type of Information Collection Request:* New. *Need and Use of Information Collection:* The White House Office of National Drug Control Policy has transferred funds to NIDA to conduct an independent, scientifically designed and implemented evaluation of the National Youth Anti-Drug Media Campaign, the first prevention campaign to use paid advertising to discourage youth from drug use. The study will assess the outcomes and impact of the national campaign in reducing illegal drug use among children and adolescents.

For this study, two different surveys will be conducted: (1) The National Survey of Parents and Youth, a cross-sectional household survey; and (2) a Community Longitudinal Study of Parents and Youth in four communities with an ethnographic component. All data will be collected using a combination of computer-assisted personal interviews (CAPI) and audio computer-assisted self-interviews (ACASI). The findings will form the basis of semiannual and annual reports on campaign progress. These reports will provide assistance in improving the national campaign, and will help to establish a rich database of information about the process involved in changing attitudes and behaviors by the mass media.

Frequency of Response: The National Survey of Parents and Youth will be carried out in 6 waves over a three-year period. Each data collection wave will last 6 months. The Community Longitudinal Study will be carried out annually over three years. *Affected Public:* Individuals and households. *Type of Respondent:* Children and parents. The annual reporting burden is as follows:

TABLE 1.—RESPONDENT AND BURDEN ESTIMATE

Type of respondents	Estimated number of respondents	Number of responses per respondent	Average time in hours per response	Estimated total burden hours	Estimated annual hour burden (over 3 years)
National Survey of Youth and Parents (NSPY)					
Screener Respondent	164,754	1	.07	11,533	3,844
Youth 9-11	9,300	1	.58	5,394	1,798
Adolescents 12-18	19,200	1	.75	14,400	4,800
Parents	20,100	1	.92	18,492	6,164
Community Longitudinal Study of Parents and Youth (CLSPY)					
Screener Respondent	28,500	1	.07	1,995	1 N/A
Youth 9-11	2,150	3	.65	4,193	1,398
Adolescents 12-14	2,150	3	.83	5,354	1,785
